# Bindul Turakhia

*Executive Director, Life Sciences*

Bindul is the Executive Director, Life Sciences with SVA Life Sciences, a member of the SVA family of companies.

Bindul leads SVA Life Science's continued expansion of Life Sciences capabilities in the East Coast region. He is local to the New York metro area and has leadership and advisory experience from top organizations across the Pharmaceutical, Healthcare, and Financial Services industries. He has a diverse background working across a range of disease areas throughout a product's lifecycle for both large and small biopharma companies. He has extensive experience managing clients, agencies, and cross-functional teams, facilitating the development of strategic and tactical plans and fostering alignment on a strategic vision.

Bindul most recently established and led a team that commercialized over 65 products/indications, and has been involved in over 10 product acquisitions/divestitures. The breadth of commercialization experience he brings to his role is well oriented to broaden SVA Life Science's offering to biopharma companies in the U.S.
