

READY»»2 SMART MIGRATE

AUTOMATE YOUR SAP S/4HANA CONVERSION

Discover the automated software tool MIGNOW that will dramatically speed up your SAP S/4HANA transformation project. Remove labour-intensive processes and automate your conversion saving money and effort.

Quickly convert your SAP ECC system to SAP S/4HANA using MIGNOW with the latest data-driven techniques using Artificial Intelligence and Machine Learning. Take your SAP S/4HANA transformation to a new level of speed and automation and deliver considerable cost savings and minimising risk.

Dramatically speed up your SAP S/4HANA transformation

Automate the steps of your conversion and reduce labour intensive processes

Remove complexity with automated yearly updates to guarantee continuity

95 to 98% of ABAP and Custom Code automatically converted

STAY IN CONTROL OF YOUR SAP S/4HANA CONVERSION

Most people agree that ERP is crucial for their business. But staying in control of your own technology transformation and meeting constant software update deadlines can be daunting. Now you have an automated software tool that will do the work for you.

- Manage your technology transformation at your own pace
- Remove the pressure and complexity of constantly updating software
- Achieve a better ROI for your ERP investment.

SPEED UP YOUR SAP S/4HANA TRANSFORMATION

Now there's an automated way to migrate to SAP S/4HANA that will dramatically reduce project duration, cost and risk. MIGNOW automatically converts your SAP ECC system to SAP S/4HANA and is available to use for on-premise, hosted or private cloud environments including SAP RISE with SAP.

- Automatically convert between 95 and 98% of ABAP and custom code
- Replace labour intensive processes with automation techniques
- Get automated yearly updates and benefit from the latest functionality and capability.

THE TECHNOLOGY BEHIND MIGNOW

MIGNOW uses the complex techniques of Machine Learning and Artificial Intelligence to create agile process execution and new functionality, ensuring you get a better ROI for your ERP.

- Machine Learning for prescriptive analytics and decision engines
- Artificial Intelligence with deductive analytics based on neural networks and deep learning.

CUSTOMER SPOTLIGHT

How **Ready2 Smart Migrate** supported Fast Project Delivery SAP Award for SOA People's client Galler

Our client Galler was recently awarded as silver winners in the Fast Project Delivery category at the recent SAP Quality Awards celebrating Best of Customer Success 2021.

Deploying the Ready2 Smart Migrate approach, Galler worked collaboratively with SOA People to implement SAP S/4HANA in an accelerated conversion timeframe. The results were outstanding, dramatically speeding up the migration process to **under three months**, while at the same time reducing disruption to the business and minimising risks involved in moving to new software with a relatively small technical team.

The business was able to move very quickly from an existing fixed management position into dynamic, agile and responsive management with enhanced ability to plan and forecast, and meet changing market demands.

THE MIGNOW LIFECYCLE

Aligned with SAP and using the latest agile design methodologies, we have developed a completely new form of automated SAP S/4HANA conversion that results in a faster project execution. The MIGNOW lifecycle is in 4 phases:

SAP® Qualified
Partner-Packaged Solution

A MIGNOW SAP qualified pre-packaged solution to support your SAP S/4HANA journey

To make your journey to SAP S/4HANA as swift, easy and seamless as possible, our MIGNOW packaged option offers the fastest, more cost-effective and secure route for your conversion.
