

# Senior SAP SCM Consultant

We inspire innovative solutions, powered by SAP technology, to deliver performance excellence to a growing network of ambitious customers in different industries and countries.

People are at the heart of our strategy. Making sure we have the right talent for the right role is critical to our business.

At SOA People we understand the importance of nurturing talent. We develop and coach you to be the best you can be. We are quick to give you responsibility and a sense of ownership. When the work is done, we celebrate and reward success. We know how to have fun!

You'll be joining a team with a great work ethic; somewhere where you know you can rely on your team members when you need them. You'll be making a positive contribution to an organisation that is transforming organisations and changing the way people work – for better.

### Our vision

At SOA People we have a role to play in a region's economy. We work with business leaders and their teams to reimagine the way their organisations achieve success. Each day, we challenge ourselves to address their biggest, most complex problems.

We do this by combining new technologies and tools, innovative processes – and our expertise. Our vision is to inspire performance, closing the gap between technology and deep transformational change on an organisational level.

### Consultants at SOA People

Our international team of consultants is pivotal in helping us realise our vision. We rely on our consultants to help our customers understand the art of the possible. A key part in helping us grow our business lies in building strong customer relationships and gaining a deep understanding of their needs.

We need SAP consultants who know how to analyse business situations using hard and soft data, and who can deliver simple, effective solutions that will enable our customers to outperform their goals. Our mission is to provide intelligent solutions that deliver client success. Each client is unique at SOA People; that's why no two days are ever the same.

### The role

As a SOA People Consultant, you will be committed to putting the customer at the centre of everything you do. You will need to build and maintain strong collaborative working relationships both with your team and with the customer. You will identify relevant opportunities to ensure our customers keep improving and innovating. You will be agile, working both independently and collaboratively with the team to ensure the best outcome.

Your passion for enabling technology in business and your ability to respect the people we work with and for, will ensure your contribution to our ongoing success as an organisation.
