## Qualifying HCPCS Conditions

A general use seat cushion (E2601) and a general use wheelchair back cushion (E2611-E2612) is covered for a beneficiary who has a manual wheelchair or a power wheelchair with a sling/solid seat/back which meets Medicare coverage criteria. If the beneficiary does not have a covered wheelchair, then the cushion will be denied as not reasonable and necessary. If the beneficiary has a POV or a power wheelchair with a captain's chair seat, the cushion will be denied as not reasonable and necessary.

For beneficiaries who meet coverage criteria for a power wheelchair and who do not have special skin protection or positioning needs, a power wheelchair with Captain's Chair provides appropriate support. Therefore, if a general use cushion is provided with a power wheelchair with a sling/solid seat/back instead of Captain's Chair, the wheelchair and the cushion(s) will be covered if EITHER criterion 1 or criterion 2 is met:

1. The cushion is provided with a covered power wheelchair base that is not available in a Captain's Chair model – i.e., codes K0839, K0840, K0843, K0860 – K0864, K0870, K0871, K0879, K0880, K0886, K0890, K0891; or
2. A skin protection and/or positioning seat or back cushion that meets coverage criteria is provided.

If one of these criteria is not met, both the power wheelchair with a sling/solid seat and the general use cushion will be denied as not reasonable and necessary.

If the beneficiary has a POV or a power wheelchair with a captain's chair seat, a separate seat and/or back cushion will be denied as not reasonable and necessary.

# Qualifying ICD-10 Diagnosis Conditions and Codes

A skin protection seat cushion (E2622, E2623) is covered for a beneficiary who meets the following criteria:

1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; AND
2. The beneficiary has EITHER of the following:
  - a. Current pressure ulcer or past history of a pressure ulcer (see diagnosis codes that support medical necessity section below) on the area of contact with the seating surface; OR
  - b. Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift due to one of the following diagnoses: spinal cord injury resulting in quadriplegia or paraplegia, other spinal cord disease, multiple sclerosis, other demyelinating disease, cerebral palsy, anterior horn cell diseases including amyotrophic lateral sclerosis, post polio paralysis, traumatic brain injury resulting in quadriplegia, spina bifida, childhood cerebral degeneration, Alzheimer's disease, Parkinson's disease, muscular dystrophy, hemiplegia, Huntington's chorea, idiopathic torsion dystonia, athetoid cerebral palsy, arthrogyrosis, osteogenesis imperfecta, spinocerebellar disease or transverse myelitis (see diagnosis codes that support medical necessity section on the next page).

## Qualifying ICD-10 Diagnosis Conditions and Codes

A positioning seat cushion (E2605, E2606) and positioning back cushion (E2613, E2615, E2620), is covered for a beneficiary who meets both of the following criteria:

1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; and
2. The beneficiary has any significant postural asymmetries that are due to one of the diagnoses listed previously in criterion 2b or to one of the following diagnoses: monoplegia of the lower limb due to stroke, traumatic brain injury, or other etiology, spinocerebellar disease, above knee leg amputation, osteogenesis imperfecta, transverse myelitis (see diagnosis codes that support medical necessity on the next page).

## Qualifying ICD-10 Diagnosis Conditions and Codes

A combination skin protection and positioning seat cushion (E2607, E2608, E2624, E2625) is covered for a beneficiary who meets the criteria for BOTH a skin protection seat cushion AND a positioning seat cushion.

If a skin protection seat cushion, positioning seat cushion, or combination skin protection and positioning seat cushion is provided and if the stated coverage criteria are not met, it will be denied as not reasonable and necessary.

If a positioning back cushion is provided for a beneficiary who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

For HCPCS codes E2607, E2608, E2624 & E2625, use one of the following (either a or b): (a) one diagnosis code from Group 2 or (b) one diagnosis code from Group 1 and one diagnosis from Group 3 (total of 2 diagnosis codes).

## Qualifying ICD-10 Diagnosis Codes

A custom fabricated seat cushion (E2609) is covered if criteria (1) and (3) below are met. A custom fabricated back cushion (E2617) is covered if criteria (2) and (3) below are met:

1. Beneficiary meets all of the criteria for a prefabricated skin protection seat cushion or positioning seat cushion (pages 22-30);
2. Beneficiary meets all of the criteria for a prefabricated positioning back cushion (pages 14-21);
3. There is a comprehensive written evaluation by a licensed/certified medical professional, such as a physical therapist (PT) or occupational therapist (OT), which clearly explains why a prefabricated seating system is not sufficient to meet the beneficiary's seating and positioning needs. The PT or OT may have no financial relationship with the supplier.

If a custom fabricated cushion is provided for a beneficiary who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

A prefabricated seat cushion, a prefabricated positioning back cushion, or a brand name custom fabricated seat or back cushion which has not received a written coding verification from the Pricing, Data Analysis, and Coding (PDAC) contractor or which does not meet the criteria stated in the Coding Guidelines section will be denied as not reasonable and necessary.

## Qualifying ICD-10 Diagnosis Conditions and Codes

For the items addressed in this LCD, the “reasonable and necessary” criteria, based on Social Security Act §1862(a)(1)(A) provisions, are defined by the following coverage indications, limitations and/or medical necessity. Options and accessories for wheelchairs are covered if the beneficiary has a wheelchair that meets Medicare coverage criteria and the option/accessory itself is medically necessary. Coverage criteria for specific items are described below.

If these criteria are not met, the item will be denied as not reasonable and necessary.

### Arm of Chair:

Adjustable arm height option (E0973, K0017, K0018, K0020) is covered if the beneficiary requires an arm height that is different from that available using

nonadjustable arms and the beneficiary spends at least 2 hours per day in the wheelchair.

An arm trough (E2209) is covered if the beneficiary has quadriplegia, hemiplegia, or uncontrolled arm movements.

#### **Footrest/Legrest:**

Elevating legrests (E0990, K0046, K0047, K0053, K0195) are covered if:

1. The beneficiary has a musculoskeletal condition or the presence of a cast or brace which prevents 90 degree flexion at the knee; or
2. The beneficiary has significant edema of the lower extremities that requires an elevating legrest; or
3. The beneficiary meets the criteria for and has a reclining back on the wheelchair.

#### **Other Power Wheelchair Accessories:**

An electronic interface (E2351) to allow a speech generating device to be operated by the power wheelchair control interface is covered if the beneficiary has a covered speech generating device. (Refer to the Speech Generating Devices LCD for details.)

#### **Miscellaneous Accessories:**

A safety belt/pelvic strap (E0978) is covered if the beneficiary has weak upper body muscles, upper body instability or muscle spasticity which requires use of this item for proper positioning.

One example (not all-inclusive) of a covered indication for swingaway, retractable, or removable hardware (E1028) would be to move the component out of the way so that a beneficiary can perform a slide transfer to a chair or bed.

## Medicare Codes

Since U.S. Medicare coding is subject to change, the provider should always confirm the HCPCS code and coverage criteria as part of the client assessment process. For coverage criteria in other countries, consult your local Permobil distributor.
