COMMERCIAL NEW CONSTRUCTION

RECEIVE FINANCIAL INCENTIVES FOR YOUR ENERGY-EFFICIENT DESIGN DECISIONS

The Commercial New Construction Program offered by FirstEnergy's Pennsylvania utilities provides complimentary energy design assistance and financial incentives to help offset the cost of implementing energy-efficient strategies for commercial and multifamily buildings. When you make informed decisions on energy-efficient design options that exceed the efficiency standards of a code-constructed building, you and your clients benefit with financial savings year over year.

Complimentary Energy Design Assistance

Customized energy model that simulates energy use to identify strategies with the greatest impact and cost-effectiveness.

Design Team Incentive

We offer a design team participation incentive to offset design team time associated with program participation.

Construction Incentive

For the building owner, based on the annual electric savings, and to help lower costs of implementing strategies.

The Commercial New Construction Program offered by FirstEnergy's Pennsylvania utilities is provided in partnership with Willdan, a preeminent national energy efficiency and sustainability consulting firm providing specialized, innovative services in energy and resource management. www.willdan.com

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.
