### Stacked Stone

The look of traditional hand-laid stacked stone masonry.

- Novik Stacked Stone resembles rectangular-shaped stones fit snugly together.
- The hand-chiseled stones range from small to medium in various thicknesses.
- Stacked stone colors replicate the earthy tones found in nature.

### Dry Stack

The modern look of precision-laid mortar-less stone.

- Novik Dry Stack offers a “dry” fit appearance with no visible mortar joints.
- The stones are generally narrow in height, while varying in length to create a contemporary look.
- Available in subtle shades with natural color variations.
