

ABQ plant, NM, USA

Expertise:

Automotive and PV Solar Industries

Size:

20,000sq-ft

Year:

2012

Capabilities:

- Surface mount technology complete SMT assembly lines
- AOI: In-line automated optical inspection (3D)
- Wave soldering (Leaded & Lead free)
- Selective soldering
- SPI
- In line automatic coating by UV
- Testing: ICT / Functional
- Automatic depanelling machines (PCB separation)
- 100% PCB and component traceability guaranteed
- Mechanical assemblies (Wire Harness, Motors, housings)

Certifications:

- IATF 16949
- ISO 9001
- IPC A 610 – Class 3 standard

PROFESSIONALS
FOR
QUALITY

Kunshan plant, China

Expertise:

Automotive and PV Solar Industries

Size:

20,000sq-ft

Year:

2019

Capabilities:

- Surface mount technology complete SMT assembly line
- AOI: In-line automated optical inspection (3D)
- Wave soldering (Leaded & Lead free)
- SPI: in line solder paste inspection
- In line automatic coating by UV
- Testing: ICT / Functional
- Automatic depaneling machines (PCB separation)
- 100% PCB and component traceability guaranteed
- Mechanical assemblies

Certifications:

- IATF 16949
- ISO 9001
- IPC A 610 – Class 3 standard

PROFESSIONALS
FOR
QUALITY

Alonsotegi plant, Spain

Expertise:
Automotive, Solar, Industrial

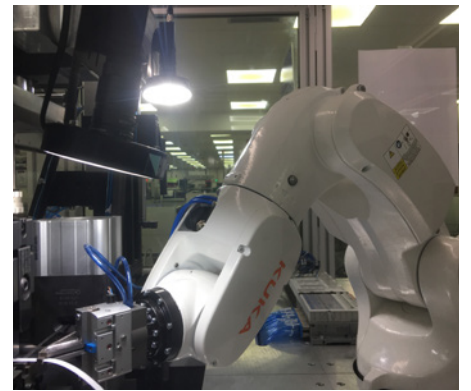

Size:
20,000sq-ft

Year:
1999

Capabilities:

- Surface mount technology complete SMT assembly lines
- SPI/AOI: In-line automated optical inspection (3D)
- Wave soldering (Leaded & Lead free)
- Selective soldering
- In line automatic coating by UV
- Automatic RTV coating
- Testing: ICT / Flying probes / Functional
- Automatic depaneling machine (PCB separation)
- 100% PCB and component traceability guaranteed
- Mechanical assemblies
- Rapid prototypes

Certifications:

- IATF:16949
- ISO:9001
- IPC A 610 – Class 3 standard
- ISO 45001
- RoHS-compliant processes
