

COVID-19 RAPID TESTING PROGRAM

Trust the face-to-face experts to help you protect your people!

Apple Rock has been in the face-to-face marketing business for over 32 years as a custom solutions provider. Given our innate ability to help clients with their custom needs, it only made sense to us to shift our manufacturing focus to making and providing customized PPE materials during this pandemic. **We have now partnered with an established testing company, with over 15 years of experience, to offer FDA Registered and EUA approved COVID-19 Rapid Tests.** This is just an extension of all the other custom PPE solutions we are providing to help our customers and our communities stay safe during this time.

COVID-19 RAPID TESTING PROGRAM

HOW WILL YOU PROTECT YOUR BUSINESS FROM COVID-19?

- COVID-19 Rapid test each person every 3 weeks
- Take temperature
- Complete COVID specific questionnaire
- Test again every 3 weeks to ensure no one becomes infected

EUA Approved COVID-19 IGM/IGG RAPID TEST:

- This test has been authorized by FDA under an EUA (Emergency Use Authorization)
- Quick finger prick for blood sample
- Detects both early marker and late marker antibodies, as long as the virus has been in your system for at least 3 days
- Results within 15 minutes with 96% accuracy
- Test must be administered by a healthcare professional. No lab required.
- Kits are sold in sets of 50.

FDA EUA Letter of Authorization RE: BIOTIME SARS-CoV-2 IgG/IgM Rapid Qualitative Test

- This test has not been FDA cleared or approved;
- This test has been authorized by FDA under an EUA for use by authorized laboratories;
 - This test has been authorized only for the presence of IgM and IgG antibodies against SARS-CoV-2, not for any other viruses or pathogens; and
 - This test is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner.

Test Kit Includes: individually wrapped kits with a finger prick tool, a swab, solution, and a test plate.

Example Results From A Rapid Test Kit:

**Result 1:
One Line**

- Results of 1 (one) line means the individual doesn't have COVID-19 and has never had it.

**Result 2:
Multiple Lines**

- This person tested positive for COVID-19 from the lab. 15 days later, she took a Rapid Test.
- The line across the G shows that she previously had COVID-19.
- The faint line at the M shows that her body is still fighting the virus.
