

Real-Time Activity Dashboard

REPORT OVERVIEW

Use the Real-Time Activity Dashboard to get a real-time view of what your students are working on now in Reading Plus, along with what they have accomplished in the current week or in a previous week. View information connected to current assignment activity, comprehension scores on Reading lessons, time spent in the program on a daily basis, active Alerts, and which students are in Support Mode.

Refine your view by using filters. You can filter by:

- Type of Alert or message
- Assignment Status
- Student Logins
- Type of Lesson

Click the back arrow to review data from a previous week.

Use the legend to assist with interpretation with data on the Real-Time screen.

Use the *Message* button to message all students directly from the screen.

Identify students with a Level Award. Print the award and celebrate!

A clock icon indicates that a student is currently in progress with an assignment.

Gray boxes indicate weekly assignments not yet started.

Colored boxes indicate completed lessons.

Completed lessons in the Reading component are color-coded based on comprehension score:

- Green = 80%+ comprehension
- Yellow = 70-79%
- Red = < 70%

Identify any student currently On Hold in the Reading component. Remember that students cannot work in the Reading component until you release the Hold from the Alerts Panel.

Use the *Message* icon to message individual students from the screen.
