

AKITABOX DEEPCLEAN ASSURANCE

ENSURE A SAFER RETURN TO YOUR FACILITIES

The COVID-19 pandemic has reshaped the way people think about the places where they live, work and play. Most people have become more aware than ever of the cleanliness of the facilities they frequent. Not only are they expecting that buildings have been disinfected according to industry guidelines, they are clamoring for more transparency into the exact processes and products used.

These expectations are a part of the new normal of doing business. Cleaning procedures will remain top-of-mind for people as they look for reassurance that their schools, offices and venues are safe to be in.

AkitaBox DeepClean Assurance helps build community trust and relieve anxiety for parents, occupants and tenants. Driven by CDC and EPA guidelines, users can implement standardized cleaning processes across all of their buildings to help limit the spread of infectious disease and create healthier spaces for people to use.

BENEFITS

✓ Build Community Trust

- Provide a sense of safety for those working or returning to your facilities
- AkitaBox certification provides assurance for building occupants
- Clear documentation allows for comprehensive audits of facilities

✓ Standardize Processes Across Facilities

- Quickly onboard the entire cleaning team
- Utilize checklists driven by CDC and EPA standards
- Cloud-based software enables unlimited users and is accessible from the field

✓ Simple to Use

- Visual tracking over digital floor plans show completed and to-do areas
- Straightforward checklists can be completed in a few clicks
- Automated work order creation reduces the risk of missed cleaning schedules

Visual Tracking

The AkitaBox platform provides a visual tracking tool, allowing you to quickly see areas of most pressing need. Room pins react to work completed, allowing users of all technical abilities to understand their to-do list.

Simple Data Entry

A simple “yes/no” and checkbox format allows users to complete checklists in just a couple of clicks. Straightforward questions with English and Spanish translations reduce confusion for end-users.

AkitaBox Certification

Gain public trust and provide relief to your customers and occupants with a shareable that can be posted in your buildings or on your website. This document provides insight into the cleaning actions taken to provide a safer, healthier facility environment.

InApp Documentation

AkitaBox DeepClean Assurance is driven by CDC and EPA guidelines, which are automatically updated and uploaded into your files within AkitaBox. Review and consult these agencies’ recommendations for ongoing cleaning processes, products and more.
