

## Common Customer Challenges

AkitaBox offers a powerful and flexible platform that our customers use to solve their most pressing facility management challenges.

### I'm looking to...

Avoid the loss of knowledge and expertise due to retirements

Automate facility compliance tasks for faster completion and reliability

Communicate with budget holders on capital budget needs

Digitize facility compliance paper work and documentation

Eliminate costly yearly facility condition assessments

Reduce the time spent compiling facility compliance paperwork

Use data to track upcoming major repairs and replacements

Eliminate excel spreadsheets and paper work orders

Plan, prioritize and defer capital projects more accurately

Digitize floor plans and asset data across my organization's facilities

Implement CDC and EPA guided cleaning processes across my buildings

Implement and track preventive maintenance programs

Provides assurance that facilities are clean, disinfected and safe to use
