

## Surgical Services- Am I Finished?

This feature will draw your attention to missing documentation.

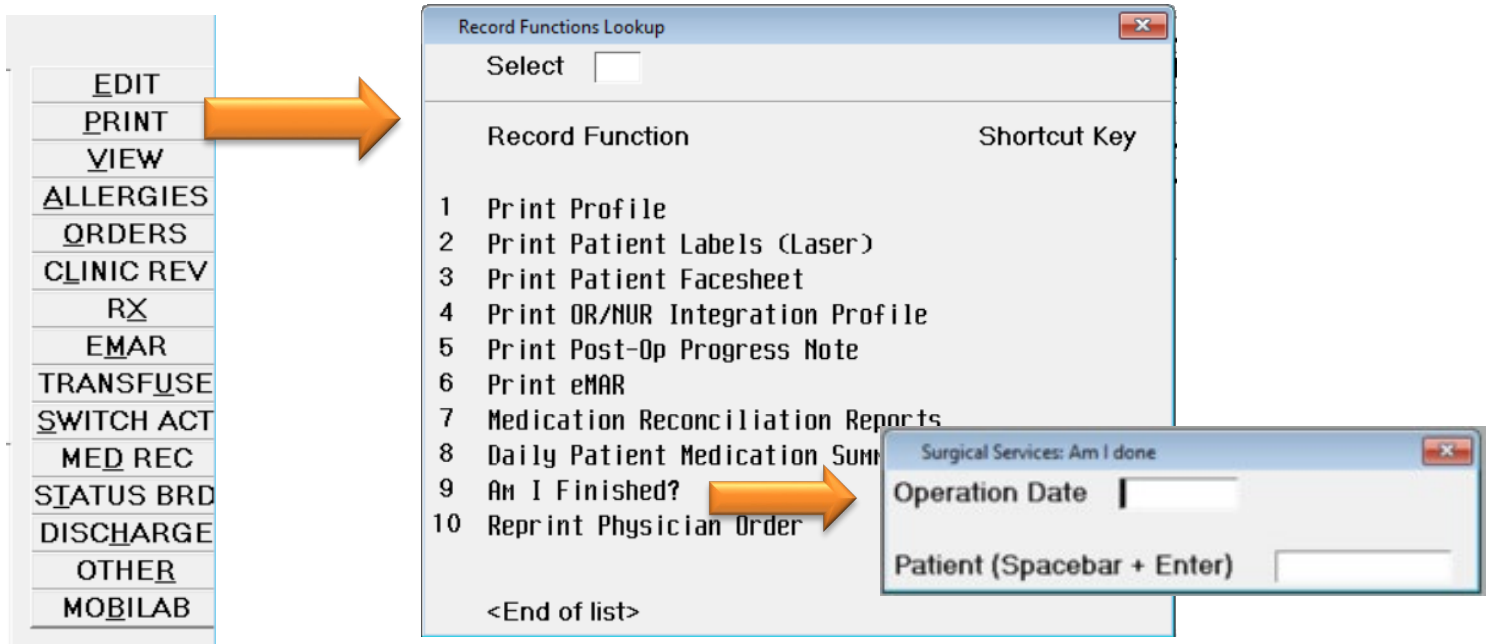

Process Surgical Record

Select **Print**

Select **Am I Finished**

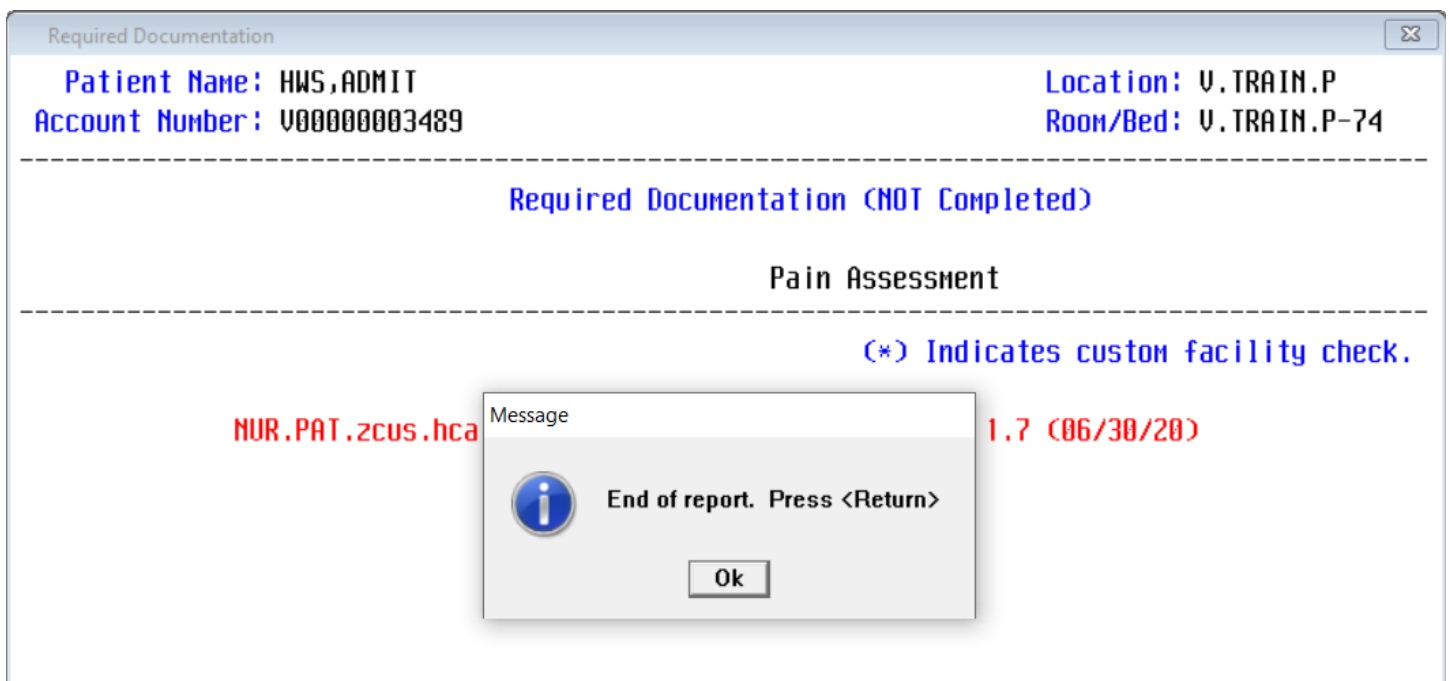

Operation Date- **T** (today)

Patient- 1) Enter the patient name or 2) **Spacebar + Enter** will recall/default the patient name

The screenshot shows a 'Record Functions Lookup' dialog box with a list of functions and their shortcut keys. An orange arrow points from the 'PRINT' option in a menu on the left to the 'Am I Finished?' function in the list. A second orange arrow points from 'Am I Finished?' to a smaller 'Surgical Services: Am I done' dialog box that contains input fields for 'Operation Date' and 'Patient (Spacebar + Enter)'.

Record Function	Shortcut Key
1 Print Profile	
2 Print Patient Labels (Laser)	
3 Print Patient Facesheet	
4 Print OR/NUR Integration Profile	
5 Print Post-Op Progress Note	
6 Print eMAR	
7 Medication Reconciliation Reports	
8 Daily Patient Medication Summary	
9 Am I Finished?	
10 Reprint Physician Order	

The screenshot shows a 'Required Documentation' window for patient HWS, ADMIT. It lists required documentation that is not completed, specifically 'Pain Assessment'. A message box is overlaid on the window, stating 'End of report. Press <Return>'.

Required Documentation (NOT Completed)

Pain Assessment

(\* ) Indicates custom facility check.

NUR.PAT.zcus.hca 1.7 (06/30/20)

Message: End of report. Press <Return>

Ok
