

KNOW BEFORE YOU GO!

HealthTrust would like to share with you that we have partnered with RepScrubs®

This partnership with RepScrubs® provides a solution to our HCA Healthcare facilities for enhanced visibility and compliance **required for all Supplier Rep/Managers, Clinical Techs and Non-Clinical Supplier Rep/Managers entering procedural areas.**

The expectation is that you are VPro credential compliant before entering any HCA Healthcare facility.

When there is an active RepScrubs® ScrubPort machine you will need to have an individual RepScrubs® account to retrieve scrubs when entering a procedural area.

Know Before You Go

Be on the lookout for future communications where the RepScrubs® dispensing is active.

You can keep up-to-date by accessing our VPro Resource Site.
