COURSE GUIDE

**The curriculum is robust,
the teachers are fantastic,
and the support structure
is great.**

– Kieran Lockyer, Software Developer
at Attract. Ai & Coder Academy Graduate

WELCOME TO CODER ACADEMY

BECOME A DEVELOPER, FAST.

Coder Academy brings you Australia's only accredited coding bootcamps.

Bootcamp-style learning has been proven successful in the United States as the most direct pathway for students with no prior coding experience to become developers in only a few months.

Whether you want to upskill, create a start-up, build an app, join a leading tech company, or travel the world as a digital nomad, Coder Academy provides you with in-demand tools and cutting edge knowledge.

Our full-time Fast Track and Flex Track courses offer revolutionary technology education in a collaborative and immersive environment, at a pace that works for you. Each stream also enables you to graduate with a nationally recognised higher ed Diploma of Information Technology.

WHY CODER ACADEMY

FAST TRACK YOUR CAREER

Focus on honing your developer skills in a collaborative and inspiring environment.

Graduate as an in-demand developer with global opportunities.

THOUGHT LEADERS

Foster strong industry relationships through our network. With thousands of contacts from the world's top tier tech companies, Coder Academy helps students develop meaningful connections with expert educators, mentors, guest speakers, and industry partners.

COMMUNITY INVOLVEMENT

Australia has a tight-knit developer community for students to get involved in. Set yourself apart from other graduates in the industry by building resume experience during the course.

We encourage students to attend industry excursions, local hackathons, and tech events.

HANDS-ON, ENGAGING LEARNING

Graduate with the most in-demand, industry relevant set of programming skills in two technology stacks—Ruby on Rails and JavaScript & React, plus optional workshops in MongoDB, Express & Node.js. Create a portfolio to show off to future employers.

INDUSTRY INTERNSHIP

Unlike university, colleges, or other boot camp programs, Coder Academy coordinates a structured unpaid one month work placement for all* students upon the successful completion of the course.

*Subject to strong academic performance and acceptance by an internship company.

COURSE DESCRIPTION

The Diploma of Information Technology at Coder Academy provides students with the in-demand skills and knowledge to thrive in the tech industry and pursue a successful career as a developer. The courses will teach you to become an agile full-stack developer who can recognise a problem, create impactful solutions and refine applications using cutting-edge languages and frameworks.

KEY LEARNING CONCEPTS

- Learn to think logically and critically
- Full-stack web development
- Computer science fundamentals
- Database design and architecture
- How to develop a web application
- Learn to integrate third party applications (APIs)
- Utilise cloud based deployment systems
- Mobile technology application fundamentals
- Develop and apply project management skills
- Perform real coding challenges
- Practise interview skills

SUBJECT HIGHLIGHTS

- UX/UI Design
- Design Theory
- Artificial Intelligence
- APIs
- App Development
- Industry Challenges
- Agile Methodologies
- Code Quality
- Project Management

COURSE INFORMATION

	Aug Intake Mon–Wed On Campus Thurs & Fri Online	Oct Intake Thurs & Fri On Campus Sat Online
Hrs/wk	35	21

*Term 4 is optional internship

**International Students accepted in Sydney and Melbourne only.

ENTRY REQUIREMENTS

DOMESTIC STUDENTS

Completion of Higher School Certificate or equivalent. Students may be subject to an interview or portfolio review before admittance.

INTERNATIONAL STUDENTS**

IELTS 5.5 across all bands (or equivalent) plus an interview.

COSTS

DOMESTIC STUDENTS

Students may also choose to pay tuition fees in instalments.

FEE-HELP is available to eligible students. More details regarding FEE-HELP can be found at studyassist.gov.au

INTERNATIONAL STUDENTS

Students will be issued a fee schedule upon successful admission.

A deposit of the tuition fees for your first term of study is required for a Confirmation of Enrolment (CoE).

HOW TO ENROL

DOMESTIC STUDENTS

Submit an online application on our website by clicking 'Apply'.

INTERNATIONAL STUDENTS

You will need to submit an online application directly on our website, followed by an international application form provided by admissions.

ACCREDITING BODY

The Diploma of Information Technology is a higher education, nationally accredited qualification. The Diploma is delivered by Coder Academy trading as Academy of Information Technology (AIT).

CRICOS 02155J | PRV 12005 | RTO 90511

WOMEN IN TECH SCHOLARSHIP

Coder Academy is passionate about reducing the under-representation of women in the tech industry.

Three talented Australian women with big aspirations in the tech industry have the opportunity to receive a scholarship covering 50% of tuition fees.*

Scholarships will be judged on a creative submission, and finalists will be determined following an interview.

Scholarship deadline is 30 days prior to each course start date.

CLEMENTINE OLDFIELD

Former bartender and filmmaker, Clem pursued her love for coding and was hired straight from her internship as a full-time developer.

“

CODER ACADEMY FAR EXCEEDED ALL MY EXPECTATIONS. THE TEACHERS AND ALL THE STAFF ARE FANTASTIC... I LEARNT A RIDICULOUS AMOUNT IN SUCH A SHORT AMOUNT OF TIME.

– **Clementine Oldfield**

Full-Stack Developer
at Alembic & Coder Academy Graduate

*One scholarship awarded per campus per intake: Sydney, Melbourne, & Brisbane

CAREER PROSPECTS

Graduate ready to land a Developer job with an average starting salary of \$67k AUD, according to [indeed.com](https://www.indeed.com)

- Senior Web Developers
- Software Developers
- Software Engineers
- Software Architects
- Product Managers
- Business Analysts
- IT Consultants
- Startup Founders
- Digital Nomads
- CTOs

OUR NETWORK IS YOUR NETWORK

Coder Academy's reputation as Australia's go-to technology educator stems from our commitment to fostering close working relationships with startups, developers, and larger businesses within the tech industry.

At the core of our network are our strong industry partnerships, which have been carefully curated to enable us to provide an educational experience that is unique, in-demand and industry relevant.

We actively work with industry to provide employment opportunities and invaluable internship experience.

At Coder Academy, we know first-hand how important it is to make the right industry contacts, and ensure your course content is relevant to the demands of the job market.

During your course, you will have the choice between working on a company's development team, or helping startups in the community build their ideas. You will also attend multiple, tailored industry excursions and events to set you apart from other graduates in the industry.

We will facilitate weekly visits from industry experts who work for companies you know and love. These mentors either present on their life as a developer, or run masterclasses for students to develop a new skill.

We also work with industry leaders to provide relevant course content that evolves as industries needs change to ensure our students gain experience in the languages, frameworks, and skills the tech industry demands from its employees.

Further, we actively work with industry to provide employment opportunities and career counselling for our graduates. Whether it is internships, work experience or full time employment, there are numerous opportunities for Coder Academy graduates to put their developer skills to use.

Partners include:

“

**DEFINITELY A
LIFE-CHANGING
EXPERIENCE.
THE TEACHERS ARE
HIGHLY PASSIONATE
AND SUPPORTIVE.
THE CONTENT COVERED
IS RELEVANT TO
WHAT IS CURRENTLY
BEING USED IN
INDUSTRY.**
