THE HISTORY OF BOZEMAN

Bozeman lies at the southern end of Montana's Gallatin Valley, an agriculturally rich area still considered one of the most fertile in North America. For years prior to white settlement, various Indian tribes including the Bannack, Blackfeet, Crow, Bitterroot Salish, Pend Oreille, Kootenai, Nez Perce and Shoshone, hunted here and in the adjoining Yellowstone Valley. Game was plentiful and because the valley was used by so many tribes, the Blackfeet called it "Many Come Together Country."

The headwaters of the Missouri River, located on the northern end of the valley, were visited in 1805 by Lewis and Clark during their trek to the Pacific. The explorers named one of the three tributaries the Gallatin River in honor of Secretary of the Treasury Albert Gallatin. A year later, during the expedition's return trip, William Clark and a portion of the "Corps of Discovery" were guided through the valley to the Yellowstone River by a young Shoshone girl named Sacagawea.

Fur traders and mountain men passed through the area after Lewis and Clark. One of them, John Colter, was nearly killed by Blackfeet on several different occasions. Another, Jim Bridger, eventually guided a wagon train of settlers into the valley in 1864, and the mountain range immediately northwest of Bozeman is named in his honor.

The discovery of gold in the early 1860's brought thousands of miners into the territory. One of them, John Bozeman of Georgia, decided to lead immigrants to the gold fields via a series of old Indian trails through the Big Horn Basin. It soon became known as the Bozeman Trail, and while Bozeman guided a wagon train to the Gallatin Valley his friends Daniel Rouse and William Beall laid out a town site. After Bozeman and his train arrived in late July 1864, those passengers who decided to forego the mines and establish farms and ranches instead named the new community in his honor.

Bozeman soon became the county seat of Gallatin County, and in 1867, following John Bozeman's death - purportedly at the hands of Blackfeet Indians - the government established Fort Ellis several miles to the east. The fort was an important economic ingredient in the early growth of Bozeman, and the soldiers also lead expeditions to Yellowstone Park and built telegraph lines to connect Bozeman to the outside world.

Following the Indian Wars of the 1870's, the Northern Pacific Railroad reached Bozeman and the Gallatin Valley in 1883. Ten years later, the Montana legislature established the Montana College of Agriculture and Mechanic Arts in Bozeman, a land grant college that today is Montana State University.

Today, Gallatin County covers more than 2,500 square miles, an area larger than the states of Rhode Island and Delaware. Because nearly half of the land is publicly owned under the auspices of the U.S. Forest Service, State of Montana, Bureau of Land Management or the National Park Service, residents have ample recreational opportunities right on their doorstep.

NorthWestern Corporation, d/b/a NorthWestern Energy, is an investor-owned utility and one of the largest providers of electricity and natural gas in the northern tier states. We serve approximately 738,400 customers with electricity, natural gas, propane, or some combination thereof in Montana, South Dakota and Nebraska. Classified as a "mid-sized" utility by most industry standards, our service territory size is one of the largest in the country. The foundation of NorthWestern's energy business dates back to 1923, with the start of the utility operations in a few communities in South Dakota and Nebraska. Our electric system serves 318 communities and surrounding rural areas covering two-thirds of Montana, eastern South Dakota, and Yellowstone National Park in Wyoming. Our natural gas system serves 180 communities and surrounding rural areas in Montana, South Dakota and central Nebraska. NorthWestern Energy has approximately 1,533 full-time employees. Our corporate headquarters is in Sioux Falls, South Dakota, with operational headquarters in Butte, Montana, and Huron, South Dakota. We are listed on the New York Stock Exchange under the ticker symbol NWE.

Economic Development

Economic vitality is crucial to Montana's future, and for many years, NorthWestern Energy has held a strong commitment to the communities it serves. Community Works encompasses NorthWestern Energy's tradition of funding community activities, charitable efforts and economic development within its service territory. In 2020, NorthWestern Energy's Community Works programs provided more than \$2 million in funds for community sponsorships, charitable contributions and economic development organizations in Montana, South Dakota and Nebraska. NorthWestern Energy is committed to serving as a meaningful and dedicated contributor to the economic development process, and we see our role as "energizing Montana's economy." Our emphasis is on "Building Montana's Future" and the mission of our Economic Development team is to help retain existing jobs in Montana, promote business expansion and recruit new businesses to the state. Our economic development employees assist site selection consultants, economic development agencies, government agencies, existing businesses and potential new businesses. They are actively involved in economic development initiatives at the local, state, regional and national levels. They can answer questions about utility rates, availability of utility distribution and transmission services, utility operations, power reliability, energy supply, and energy efficiency programs.

Powering Montana's Business Community

At NorthWestern Energy, we're proud of our longstanding role in fulfilling the growing energy demands of Montana's businesses, and we're always glad to lend our support to new ventures, expansions and energy efficiency measures. To find out how NorthWestern Energy can assist your small business, visit our website or call us at (888) 467-2669.

2021 Economic Development

Gallatin County Lead Montana's Economic Growth for the Third Year

Bozeman is home to Montana State University, which has seen increasing enrollment and expanded research. There is the exciting high-tech industry concentrated in manufacturing and professional services. Bozeman also is growing as a health care center. Nonresident travel, mostly in Big Sky and West Yellowstone, is seeing more visitors throughout the year. With all these growth factors, construction is booming. Congestion and affordability have emerged as pressing issues in Gallatin County, but many other parts of the state would wish to have these problems.

Gallatin County's population is expected to steadily increase through 2040 with low projections of 123,000 to high projections of 177,000. The total growth for the City of Bozeman by 2020 will exceed 50,000.

Housing

The real estate market in Gallatin County has exploded in 2020. Bozeman, in particular with the median sale price of a single-family home increasing by 20% in just 12 months. This is not expected to change any time soon with an influx of out-of-state residents moving to the area. Inventory remains low with the number of homes for sale in Bozeman decreasing by 72% in 2020. This low inventory of homes for sale and high buyer demand has had a significant impact on the real estate market and housing prices.

Bozeman has seen some new construction, along with a few new subdivisions approved for future development. Downtown and Midtown have had the majority of the new construction with several mixed-use developments currently underway, as well as some large future projects. The surrounding areas are seeing growth as people look outside of Bozeman for their housing needs. Belgrade home prices have been increasing steadily and their market is nearly as competitive as Bozeman. Manhattan and Three Forks are becoming popular options in Gallatin County, with Three Forks, in particular, seeing a surge of new construction.

*statistics courtesy of Big Sky Country MLS, InfoSparks

Tourism

According to the Institute for Tourism Recreation Research, Bozeman was visited by over 34% of all visitors to the State of Montana. It is estimated 12,636,00 visited Montana in 2019, with 4,238,786 coming thru the City of Bozeman, with 1,339,979 spending the night. The report also indicated 2,644,819 visitors spent the night in Gallatin County, spending nearly \$962,800,869 in 2020.

Transportation

Bozeman and Gallatin County continues to strive to improve and enhance the transportation system to provide for our continued growth and to meet the demands of being a vibrant tourist attraction and regional shopping hub. Improvements to Rouse Avenue, Kagy Blvd, and North 7th Ave are all in construction or planning phases.

The connectivity of Bozeman Yellowstone International Airport (BZN) to destination cities and airline hubs around the country has grown drastically over the last few years. With the addition of Southwest Airlines in Summer 2021, the airport is now served by nine airline brands with non-stop service to 25 markets (see page 37 for direct flights).

Workforce

With unemployment at 6.7 percent nationally the Montana Department of Labor and Industry reports statewide unemployment rate of 4.4 % as of December 2020 and Gallatin County estimated at 3.6 percent, with estimates less than 3.4 percent in Bozeman. Bozeman more than any other area in the state, is a driving force helping to make that happen.

We continue to address Workforce Development thru the Workforce Development Committee at the Chamber of Commerce, by partnering with businesses and Gallatin College and Montana State University to make sure that we are offering the right type of training to match the industry's needs. An effort is also being made to get Gallatin College Funding for new training center and create additional workforce specific training programs.

Bozeman and Gallatin County has become the place to work, play, and invest. Contact the Bozeman Area Chamber of Commerce for a complimentary 2021 Economic Profile at dschliem@bozemanchamber.com

Montana State University is as remarkable and inviting as its setting. Created as a land-grant institution, it is an adventurous community of students, faculty and staff distinguished by its commitment to addressing the world's greatest challenges. MSU empowers individuals to discover and pursue their aspirations. It inspires people to engage with the university to improve the human prospect through excellence in education, research, creativity and civic responsibility.

Learning

MSU's research and inquiry-based curriculum inspires big ideas. Through the integration of learning and discovery, students gain hands-on experience that prepares them for successful careers. Graduating seniors consistently outperform their peers nationally on professional exams in business, engineering, nursing and dietetics.

Discovery

Montana State is the largest research entity in the state of Montana and is among the top 3 percent of colleges and universities in the nation for research spending, with research expenditures typically exceeding \$150 million per year and reaching \$167 million in the 2019-2020 academic year. Areas of expertise range from biomedical sciences, energy, optics and solar physics to agriculture, the environment, snow science, Yellowstone studies and paleontology.

Engagement

MSU has earned the Community Engagement classification from The Carnegie Foundation for the Advancement of Teaching, which recognizes MSU's commitment to teaching that encourages volunteer service and the spreading of knowledge that benefits the public. Through student clubs, class projects and outreach activities, MSU students help people and communities around the globe.

- MSU is among the top 12 colleges and universities in the country for its number of Goldwater Scholarship recipients, the nation's premier award for excellence in math, science or engineering.
- The best and brightest Montana high school graduates choose MSU. Of the graduating high-school seniors who received the Montana University System Honors Scholarship in 2020, 74 percent chose to enroll at MSU. The 2020 entering class also boasts eight National Merit Scholarship finalists and a record high average GPA of 3.6.
- MSU research has led to significant discoveries that are changing the world. With more than 299 active technology licenses, 63 active issued patents and 44 active plant variety certificates, MSU provides particular expertise in the fields of agriculture/natural resources, energy, materials/manufacturing, health and biomedical, as well as big data/cyber infrastructure.
- Many of MSU's programs are recognized among the best in the country, including its programs in business, filmmaking, animal and range sciences, and engineering.
- MSU is the largest university in Montana and the largest research and development entity of any kind in the state, which translates into many opportunities for students to be a part of meaningful hands-on research, creative projects and economic prosperity for the area.
- MSU students are engaged, consistently giving back to their communities through service-learning projects. Recently, architecture students partnered with local and state agencies to build tiny home prototypes to house rural educators and the homeless. In 2018 and in partnership with the Gallatin Valley Food Bank, MSU students addressed food insecurity through Legion Villa Farm Stand. Located near an affordable housing community for seniors in Bozeman, the stand provides access to discounted organic produce from Towne's Harvest Garden, a research farm at MSU.

Montana State University Innovation Campus

The Montana State University Innovation Campus is a high-tech R&D campus located in Bozeman's education and research corridor adjacent to the university. It provides a place where MSU, private and government researchers and scientists collaborate to push forward cutting-edge research, advance technologies and promote academic and industry collaboration. As the leading university-related research park in Montana, the Montana State University Innovation Campus provides: a place where people and ideas come together; state-of-the-art R&D facilities to support early stage startups, as well as small, medium and large R&D companies; a place where students gain hands-on real-world learning experiences that often result in full-time employment upon graduation; and services, programs and expertise to support the transfer of technology from MSU and stimulate the growth of research and technology-based enterprises.

Simply put, the **Montana State University Innovation Campus** is a **unique R&D community** that connects people and ideas, promotes public-private partnerships, stimulates new ideas and advances research and science **that transforms the world.**

Clusters of high-tech R&D companies in the following areas have already been established at MSU's Innovation Campus:

Agriculture	Molecular and Cellular Biology
Biotechnology	Advanced Materials
Laser and Optics	Pharmaceuticals
Infectious Diseases	Biofuels
Applied and Environmental Engineering	Software and Hardware

GALLATIN COLLEGE MONTANA STATE UNIVERSITY

Gallatin College MSU is Southwest Montana's premier two-year college, offering associate degrees, one- or two-year professional certificates, and early college education. Gallatin College ensures access to education and workforce development that promotes a vibrant local economy. The College collaborates extensively with business leaders to develop new programs and provide responsive training options. Supported in part by local funding, Gallatin College is committed to meeting the workforce needs of the area industries, including healthcare, technology, construction, hospitality and more. These workforce programs help students improve their skills, advance their career opportunities, or prepare for a career change.

To enhance educational opportunity, Gallatin College also offers developmental coursework and transfer programs for college students, as well as and dual enrollment/early college options for high school students. Developmental courses are designed to help students develop foundational skills and be successful in subsequent college level courses, while transfer degree options allow students to fulfill general education requirements in preparation for a four-year degree. Dual enrollment courses enable area high school students to earn college credit in anticipation of future college enrollment.

Bozeman Public Schools- Elementary

At first glance, the Bozeman Public Schools might appear to be a small school district. There are eight elementary schools, two middle schools, two high schools and a charter academy. Currently, there are approximately 6,900 students and 900 full-time and part-time employees. The Bozeman Public School System covers an area much larger than the city of Bozeman. There are two districts, Elementary District #7 and the Bozeman High School District. The school system is a public entity under the authority of the state.

Kindergarten

Kindergarten classes in the Bozeman schools are full-days during the regular school year for children who are age five on or before September 10. Kindergarten classes begin a few days later than the other grades to allow for kindergarten orientation, providing a positive and informative introduction for students, parents and teachers.

At the time of registration parents must provide the school with the child's birth certificate and immunization records. State law requires that the child has the standard series of vaccinations and immunizations or submit either a notarized Affidavit of Exemption using a religious grounds form or a medical exemption form signed by a medical doctor.

Elementary Grades 1-5

Students who are six years old on or before September 10 or who have successfully completed kindergarten in an accredited school in another state during the previous year, may enter first grade. The average class size is 20 students for grades K-2, 28 for grades 3 and 4 and 30 for grade 5. Bozeman Public Schools and Greater Gallatin United Way of Gallatin County partner to provide **KidsLink** before and after school programs at each elementary school.

All K-5 registration is completed online or in the Enrollment Office at 404 W. Main Street.
The Enrollment Office can be reached at 522-6005.

High Schools

Bozeman High School has a current enrollment of approximately 1,463. The school was twice named as one of the outstanding schools in America by the U.S. Department of Education and is accredited by the Advanced-Ed Accrediting Association and the Montana Office of Public Instruction. Several Bozeman High graduates have gone on to become Rhodes Scholars, many others have enjoyed successful careers as adults including playing in the NFL and becoming CNN news anchors.

Bozeman Gallatin High School is Bozeman's newest high school. It opened for the 2020-21 school year with grades 9-11 only and has a current enrollment of approximately 898. The 2021-22 school year will include grades 9-12. The Raptors look forward to maintaining the same standards of academic and athletic excellence that Bozeman is known for.

Registration

Registration for high school students is completed in the spring. New students to the district should go to their respective High School Registrar, with their parents/guardians, to complete the registration process.

Bozeman Health

Bozeman Health is honored to care for the communities within Southwest Montana.

Bozeman Health is comprised of a passionate team of nursing, advanced care practitioners, physicians, and support services team members driving excellence in patient care with a focus on quality, safety, and delivering the best care possible close to home. As an integrated healthcare delivery system serving an eight-county region, we are governed by a volunteer community board of directors. We take seriously our responsibility as the largest private employer in Gallatin County, with more than 2,000 employees, including 250 medical providers representing 40 clinical specialties. It is our privilege to deliver expert, compassionate health and wellness services across the care continuum, designed to meet the diverse healthcare needs of the communities we serve.

As a faith-based, non-profit health system, investment in our community means we reinvest revenue into facilities, technology, and health care services to ensure that our facilities are up-to-date and our equipment and services are state-of-the-art. Our vision is to be our community's partner in health and wellness, compassionately delivering the best care for each person, every time. Our mission to improve community health and quality of life is lived out every day through our employees, providers, programs, and services.

Bozeman Health Deaconess Hospital is an 86-bed facility, DNV GL-accredited, licensed Level III trauma center located in Bozeman, recently recognized as a Top 100 Rural Community Hospital by The National Rural Health Association in 2020. Deaconess Hospital is currently undergoing significant expansion by revitalizing its main entrance, adding a three-story patient care tower that will include a new, state-of-the-art intensive care unit, as well as adding a neonatal intensive care unit within its Women's and Children's tower. Primary care practices associated with the health system were the first in Montana to receive National Committee for Quality Assurance Level III Medical Home Recognition.

WE'VE GOT THE WORD ON THE STREET (ALL YEAR LONG).

Getting around town is a breeze all year long when you know where the City of Bozeman is working, plowing, and maintaining our streets.

WINTER SPRING SUMMER FALL

SNOW REMOVAL 101

- After snowfall, our yellow plows clear emergency routes and main arterials as our first priority. Main St, N. 19th, N. 7th, and Rouse are all state routes plowed by MDT.
- You can help us by moving your car off street (trailers too!) so our plows can clear snow to the curb.
- Don't forget, it's your responsibility to clear your sidewalks within 24 hours of snowfall.

SPRING (STREET) CLEANING

- To prevent our storm drains from plugging up with the sand from winter ice control, we send our street sweepers out to our residential streets in the spring as soon as the weather permits.
- You can help us by watching for signs letting you know when we will be coming down your street and moving your car.

**SPOT A
POTHOLE?**
Call 406-582-3208
and we'll smooth
things over.

CONSTRUCTION SEASON

- Construction starts as soon as the weather permits, which might be in spring, and will go until the weather doesn't permit work in the fall.
- Get the scoop on ALL Bozeman street projects (not just City ones!) by following BZNStreetReport on Facebook and Twitter. Also at Next Door and Bozemanstreetreport.com.

FALL LEAF PICKUP

- Fallen leaves can enter, plug, and then freeze in our storm drains causing damage.
- Every fall we'll pick up your leaves (for free!) as soon as the leaves are falling and the weather permits.
- Please help by prepping your leaves and watch for notifications to move your car so we can clean right up to the curb.

Bozeman Yellowstone International Airport

Bozeman Yellowstone International Airport (BZN) is Montana's busiest airport and serves as a year-round gateway to Yellowstone National Park. BZN also serves the recreation areas of Big Sky Resort and Bridger Bowl as well as the business centers of Bozeman, Belgrade, Big Sky and Livingston and higher education at Montana State University and the Gallatin College. BZN handles more passengers than any other Montana airport and is served by eight airline brands with coast to coast non-stop service including Atlanta*, Boston*, Charlotte*, Chicago, Dallas/Ft. Worth, Denver, Fort Lauderdale*, Houston*, Las Vegas, Los Angeles, Minneapolis/St. Paul, Newark*, New York JFK*, New York LaGuardia*, Nashville, Philadelphia*, Phoenix-Mesa, Portland, Salt Lake City, San Francisco, and Seattle/Tacoma. Over 1,000 people are employed by the 37 entities with offices at the airport. *Denotes seasonal service

SAFE • RELIABLE • DEPENDABLE

Karst Stage, Montana’s premier transportation company, has a rich tradition in the Gallatin Valley. Current co-owner and General Manager Dan Martin says, “Over a century ago, Pete Karst delivered mail from Bozeman to West Yellowstone by stage coach and floated logs down the Gallatin River.”

While the business has been around a long time, Martin explains how they treat every day and opportunity as a new one. “Since the business’s inception, there has been a recurring theme of change. We have always tried to seize the opportunities by being community driven.”

An example of this is that Karst is contracted to run both the Bozeman (Streamline) and Big Sky (Skyline) transit systems. Based on community feedback, Karst pitched the idea of linking the two systems together to Skyline, and now they run 8 roundtrips daily.

Some of those connections reach far beyond the community because Karst run airport shuttles out of Bozeman Yellowstone International airport. Martin says, “People come into our beautiful airport from all over the world and call us to transfer them throughout Bozeman, Big Sky and

the Gallatin Valley. Our Yellowstone Day guided day trips have also become really popular. With our new location in Billings, we have really branched out to cover the majority of the state.”

Karst has 20 charter buses to choose from including mostly Prevost motorcoaches—the world’s most premium passenger coach. The coaches go anywhere from a local wedding to 14 day charters through numerous western National Parks.

Today the company employs nearly 100 people, and has about 50 vehicles to choose from. Martin concludes, “We are carrying on Pete Karsts’ torch. Over a half million passengers travel on our vehicles to business meetings, on vacations, and to special events. But it’s our driver’s willingness to share their Montana experiences and their focus on safety that will make our passengers vacations stand out.”

MUSEUMS CONTINUED...

Gallatin History Museum

Step back in time and learn about Gallatin County's rich heritage. The Gallatin History Museum is located in the original county jail built in 1911. In addition to jail cells and a hanging gallows, the museum maintains displays illustrating the unique histories of a variety of people who have called Southwest Montana home. Permanent exhibits include Gallatin Agricultural Heritage Room, a model of old Fort Ellis, the infamous Big Horn Gun, music room an Olde Time Theater. Visitors can step inside an authentic 1870's log cabin or browse the bookstore full of unique titles from area authors and historians. The research center has a photo archive of over 20,000 images. The museum is within easy walking distance of downtown Bozeman's many restaurants, art galleries and shops.

The Montana Science Center

Montana Science Center is an interactive science and technology center for families and visitors of all ages! Life is Downtown...

Today's Farmer's Market is a far cry from those of the past, and from the chain supermarkets that are now commonplace across the nation. As cities grew, so did regulations regarding how farmers and rancher could sell their wares. Sometimes these aided the consumer, but far too often they served the needs of supermarkets and their giant parent organizations.

The Montana Department of Agriculture, with local grass roots support, established guidelines for farmer's markets across the state in 1977. The basic rule: you have to grow it or produce it to sell it. Goods can come from anywhere; a seller's backyard or even one of Montana's biggest cattle ranches.

Interest in supporting native grown, self-sustained agricultural produce spurred the development of the Montana farmer's market. Equally important is the fact that it is a place to see and be seen. Live music, arts and crafts and a laid-back western vibe give even the casual observer a reason to pause, enjoy and socialize. But perhaps it is most important to note that when visiting the farmer's market, you are helping to preserve family farms and Montana's cherished historical, cultural and family values. Some items you'll likely find at a Bozeman Farmer's Market include: Goat Cheese, Dixon Melons, Flathead Cherries,

Fresh Milled Flours, Gourmet Salsas, Assorted Livestock, Locally Raised Beef & Pork, Arts & Crafts, and Organic Produce.

BRIDGER BOWL

Photo courtesy of: Austin Larson

Ski the Cold Smoke! Bridger Bowl, a nonprofit, community ski area since 1955 is located only 16 miles north of Bozeman on Highway 86. Our mission to provide a quality ski (and snowboard) experience at the best possible price keeps ticket prices affordable, allowing for the best skiing and riding in the Rockies at a fraction of the price.

Bridger Bowl boasts 8 chair lifts and 3 surface lifts with terrain ranging from a dedicated beginner area to the experts only Schlasman's lift (transceiver required) which takes adventurous skiers to the summit. Double black diamond skiers and riders will find a vertical playground of chutes, snowfields and cliff bands. Beginner and intermediate skiers will enjoy over 500 acres of beautiful, wide-open low angle terrain by the popular Alpine Cabin.

With 2,600 vertical feet covering 2,000 acres of terrain, 4 beautiful day lodges, a professional ski and snowboard school and a complete line of rental and retail services, your whole family will fully enjoy this Montana gem. Large alpine bowls and superb natural terrain features including glades, smaller bowls and gullies provide the opportunity to hone skills and test limits. Bridger Bowl is one of the best ski areas in North America offering a big-mountain experience with a friendly, local vibe.

CROSS COUNTRY SKIING IN BOZEMAN

The mountains and meadows of Bozeman, Montana, hold some of the best cross country skiing in the country. The nonprofit Bridger Ski Foundation tends to 70+ km of groomed ski trails—including a loop with snowmaking in downtown Bozeman. Combine that with another 45 km of trails at Crosscut Mountain Sports Center, adjacent to Bridger Bowl, plus destination ski touring areas in an easy day's drive, and you'll find that Bozeman is a Nordic mecca for both professional and recreational skiers.

CROSSCUT MOUNTAIN SPORTS CENTER

Located in Bridger Canyon, adjacent to Bridger Bowl, Crosscut (formerly Bohart Ranch) includes 45 km of skate and classic skiing, as well as snowshoeing and fatbiking trails. A 25-minute drive from downtown Bozeman. Day pass: \$25 for adults; \$15 for youth, children under 10 free. www.crosscutmt.org

COMMUNITY NORDIC TRAILS

70+km of "free" access, groomed by the Bridger Ski Foundation (BSF). These trails are on a combination of private, Forest Service, and city land. (This system is unique: skiers are asked to support the donor-funded grooming with voluntary trail passes, but those who can't afford a pass can still ski!)

Passes and grooming reports at www.bridgerskifoundation.org/trails.

There are six groomed locations in this system:

HIGHLAND GLEN (10 KM)

Features rolling terrain through fields, sagebrush, and low hills close to downtown.

Parking: at the Softball Complex lot, on the corner of Ellis St. & Highland.

SUNSET HILLS (5KM)

This loop winds up and down through a large field nestled between Lindley Park and the hospital, and includes snowmaking.

Parking: at the Softball Complex parking lot, on the corner of Ellis St. & Highland.

BOZEMAN CREEK/SOURDOUGH CANYON (23 KM)

Bozeman Creek (aka Sourdough Canyon) is a wide track that gradually climbs up the canyon, alongside Bozeman Creek on the national forest, with both classic and skate lanes. This is a popular multi-use trail, so expect to see lots of dogs, walkers, and skiers in the first few miles. Ski to Mystic Lake and back for 32 km (about 20 miles).

Parking: at the trailhead at the end of Sourdough Canyon Rd. Or access the upper reaches of this trail via Moser Trailhead in Hyalite Canyon.

BRIDGER CREEK GOLF COURSE (7 KM)

The Bridger Creek Golf Course provides some of the best beginner and intermediate in-town cross country skiing in Bozeman, with beautiful views of the Bridger Mountains.

Parking: at the golf course's clubhouse, 2710 McIlhatten Rd. There are loops on both sides of the road. Do not park in residential areas.

HYALITE (30+KM)

Hyalite Canyon serves as the recreational hub of Bozeman. The Forest Service's winter trail system provides endless miles of cross country skiing—both groomed and ungroomed—throughout the canyon. Most of the 30 km of groomed trails here are better suited to classic skiing. The Custer-Gallatin National Forest provides the primary grooming, with assistance from the Bridger Ski Foundation. The grooming here is less frequent.

SACAJAWEA MIDDLE SCHOOL (1 KM)

This 1 km loops is located on the athletic fields behind the school, with flat, beginner-friendly terrain. The public is welcome to use this trail outside of school hours.

Custer Gallatin National Forest

You can experience cross country skiing and snowshoeing in Montana the moment you arrive in Bozeman. There is a groomed trail in **Lindley Park**, located on East Main Street, as well as several other in-town trails, providing cross country skiers and snowshoer's the opportunity to enjoy their sport right away. The Custer Gallatin National Forest provides access to hundreds of acres of winter wonderland with spectacular views and wildlife viewing. Some popular trails near Bozeman include **Bear Canyon**, **Hyalite Reservoir** area and the **Mystic Lake** trail. You may enjoy an overnight back country experience by renting a forest service cabin. Space and cabins are furnished with bare basics, are remote, limited, and rented on first-come first-served basis. Check the number listed below for more information. Within a few hours' drive from Bozeman there are two groomed cross country public trails including **Bear Creek Road** near Gardiner (near the north entrance of Yellowstone National Park) and **Rendezvous Complex** near West Yellowstone.

Call the Chamber or check with **local ski shops** for locations in the city and nearby trails.

From rugged mountain terrain to fields and roadways, some of Montana's most beautiful sights can be found when you cross country ski or snowshoe the forest and backcountry of Custer Gallatin National Forest.

BELGRADE

Incorporated in 1906, this important wheat shipping and milling center and one-time home of the famed Belgrade bucking bull, was established. A Serbian who purchased land in the vicinity is thought to have named Belgrade after the capital of his country. The first steel grain elevator in Montana was built here in the summer of 1904 by the Gallatin Mining Company.

MANHATTAN

A far cry from its New York cousin, Manhattan's claim to fame is its annual Manhattan Potato Festival, featuring potato products from local farmers. Initially called Moreland, families from the Netherlands moved in to grow barley for malters near the new little town of Manhattan- renamed in January 1891 by a group of New York City investors who operated the Manhattan Malting Company. Incorporated in 1911, it was established in 1884 on the new railroad line.

THREE FORKS & MISSOURI HEADWATERS STATE PARK

The town of Three Forks is situated at the headwaters of the Missouri River. This area is the geographical point where the Gallatin, Jefferson, and Madison Rivers join to form the Missouri River and has some of the most colorful early history in Montana. It was significant to Lewis & Clark on their epic journey, to fur trade, and to the early Montana settlement. In addition, Three Forks was the crossroads of Indian trails. It was here that, just west of town, Sacajawea as a child was abducted from her tribe, the Shoshoni. Later, as an adult, she famously guided Lewis & Clark Expedition through the area.

The Lewis & Clark party arrived at the headwaters of the Missouri River in July 1805. They camped for a week along the Jefferson River just above the head-waters, while Clark recovered from a fever. In 1806, Clark was guided by Sacajawea across the valley from Three Forks to the pass leading directly into Yellowstone.

Visit the Headwater State Park or the Headwaters Heritage Museum in downtown Three Forks for more history on the Three Forks area. On your visit you can enjoy camping, hiking, wildlife viewing, picnicking and historical interpretive sites. The Missouri Headwaters State Park is located four miles north of Three Forks just off Interstate 90 and is open year-round. Parks fee charged.

VIRGINIA & NEVADA CITY

Once a booming gold mining town, Virginia City was also the original capital of Montana territory. Located 14 miles from Ennis, on Highway 287, Virginia City offers visitors the opportunity to walk along boardwalks and relive a part of the past. Both historic and architecturally significant, the past comes alive and your imagination will take over when you visit the restored buildings in this city frozen in time.

Virginia City's Opera House offers summer stock theater, providing the night after night of authentic Victorian theater and a rollicking vaudeville variety show. This is Montana's oldest professional theater, and not to be missed. Once a lawless town, Virginia City's darker history includes many tales of vigilantism, widely considered to be blight on the history of Montana. Visitors to Boot Hill will find the graves of five road agents that were hung in 1864.

LEWIS & CLARK CAVERNS

Located about 1 hour from Bozeman, these spectacular underground caverns offer visitors a chance to take a guided tour through the cave. Discovered in the early 1840s by local ranchers, the caves have been toured by visitors since the early 1900s. Proclaimed the Lewis & Clark Caverns by Theodore Roosevelt, the caverns offer visitors a unique look at nature's underground beauty. The park also offers an information center, fireside programs, a café, gift shop, and shady picnic areas.

The park also offers an information center, fireside programs, a café, gift shop, and shady picnic areas. The park is open year round for camping and hiking. The caverns are open for tours from May 1 - September 30. Call for admission fees.

LIVINGSTON

Just over the Bozeman Pass is a taste of the Wild West in Livingston, home of Calamity Jane and many more characters. Jimmy Buffet sings about it in Livingston Saturday Night - "A rockin' and a rollin' on a Livingston Saturday Night." You'll find delicious restaurants, exquisite fare, unique clothing and gifts as well as The Sleeping Giant resting in the Absaroka Mountain Range, visible just down 2nd street from most places in Livingston. Be entertained by the Blue Slipper Theatre and Firehouse Five Playhouse featuring musicals, drama and comedy. Visit The Livingston Depot Center that captures the spirit and history of the West through a variety of media, artifacts, photography, art and costumes. More than 500 objects and photos are exhibited.

GARDINER

Gardiner is located at the north entrance to Yellowstone National Park which features the famous Roosevelt Arch as well as numerous restaurants and shops. Founded in 1880, Gardiner became a center of activity for visitors to the region, serving as the original and only year-round entrance to the park. This frontier town fed and sheltered miners and entertained the early soldiers who operated Yellowstone National Park. Elk regularly roam around town, while bighorn sheep come down from the mountains to graze within view.

GALLATIN GATEWAY

The agricultural and cattle shipping center was originally named Salesville for Zachariah Sales who settled there in 1865 and operated a saw mill for logs floated down the West Gallatin. Its name was changed in 1927, when it became home to the Milwaukee Railroad's 42,000 square-foot-Spanish style building, the Gallatin Gateway Inn, and the starting point for trips by bus through Yellowstone National Park.

GALLATIN CANYON & THE BIG SKY AREA

There's more to Big Sky than just "Skiing the Sky." Big Sky, just 48 scenic miles from Bozeman, offers a variety of attractions year-round in one of Montana's top recreation spots.

Big Sky and the Gallatin Canyon are surrounded by some of America's most pristine land. The Lee Metcalf Wilderness Area and the Yellowstone ecosystem help comprise more than 3 million acres of land set aside forever for protection and enjoyment. Several mountain peaks are in excess of 11,000 feet, including Big Sky's own Lone Peak at 11,166 feet. With this serving as a backdrop, visitors can look forward to a trip filled with the finest in outdoor activity and grandeur.

Dedicated and casual golfers alike are presented with a treat and a challenge when they enjoy a round at the Big Sky Golf Course, an 18-hole Arnold Palmer design that will accommodate all skill levels. For those who want to experience the wilderness up close and personal, area stables offer guided horseback trail rides lasting anywhere from one hour to a full day. Scenic gondola rides are also available high above the resort on majestic Lone Mountain. Bring a mountain bike (rentals are available) and ride down, or hike to the top and back down on one of the many trails back to the base area as you take in the breathtaking vistas and stunning wildflower displays. Walk quietly and you might be treated to some wildlife viewing, too. Five blue-ribbon trout streams grace the Canyon area, including the Gallatin River, where the movie "A River Runs Through It" was filmed. Try your hand at a self-guided trip, or take advantage of local outfitters who offer guided wading, float tubing, or boat fishing trips. The Gallatin River is also host to white water rafting and scenic floating opportunities.

Special events take place all summer long at Big Sky, highlighted by the Big Sky Arts Festival. Featuring classical symphony, jazz, bluegrass, country, folk, and pop concerts, the concerts are festive outdoor events and not to be missed.

Plan a ride down the Gallatin Canyon- it is never tiring and one of the most beautiful trips you will ever take.

HYALITE CANYON & RESERVOIR

The 34,000-acre Hyalite Drainage, part of the Gallatin National Forest, is a spectacular mountain valley that sits between the Gallatin Canyon and Paradise valley just south of Bozeman. This popular recreational area contains a large reservoir built in the 1940s, which today has a hold capacity of 8,000 acre feet. Its coves and caves, plus easily accessible pier, offer great trout fishing spots.

Hyalite Reservoir provides drinking water for the city of Bozeman and irrigates the Gallatin Valley. The Hyalite Drainage Recreational Area is surrounded by 10,000 foot mountain peaks, creeks, streams, lakes and numerous waterfalls. The hikes to Blackmore Lake, Palisade Falls, Emerald and Heather Lakes, and the trail to Hyalite Lake all lie in the Hyalite Canyon. This glaciated, carved valley is mesmerizing in its beauty and splendor, and a great getaway for all to enjoy.

HEBGEN LAKE

This reservoir of Northwestern Energy, with a capacity of 331,537 acre feet, supplies supplementary water in dry season to the hydro-electric plants on the Madison and Missouri. Construction of the dam began in 1908 and was completed in 1915. It's a beautiful lake to visit on your way to Yellowstone, do a little fishing, or water ski in the summer.

QUAKE LAKE

The Hebgen Lake area was rocked by an earthquake that measured 7.1 on the Richter scale August 17, 1959. The after-effect of the earthquake was the formation of a lake, appropriately named Quake Lake. Quake Lake was born when part of the mountainside slid into the Madison River, dropping the earth 19 feet and damming the water, tragically killing 28 people at a nearby campground.

The Earthquake Visitor's Center, staffed by Forest Service, is located on U.S. 287. Hiking trails and campgrounds are also in this area.

WEST YELLOWSTONE

This Montana town was first settled and became an "official" entrance to Yellowstone National Park in 1907, the year the Oregon Short Line branch was completed. In 1908, Samuel P. Eagle and Alex Stuart opened the famous Eagle's Store, a corner-stone of the town to this day. In 1910-11, the West Gallatin Wagon Road was built from Taylor's Fork to the point which it had reached in 1989. Today, West Yellowstone is an active tourist town sitting at the west entrance to Yellowstone National Park. Its newest attractions are the Grizzly Discovery Center and the National Geographic IMAX Theatre, giving visitors the educational opportunity to view grizzly bears and wolves closely.

Welcome to YELLOWSTONE NATIONAL PARK

World's Largest Collection of Geysers

Yellowstone National Park, established in 1872 and located primarily in Wyoming, is **America's first national park**. Contained within its borders are more than 2 million acres of natural wonders, wilderness settings, and unique experiences that await park visitors. **Yellowstone National Park sits on top of a dormant volcano and is home to more geysers and hot springs than any other place on earth.**

Yellowstone National Park is home to many species of North American wildlife roaming in a wilderness virtually untouched by modern influence. Visitors are treated to the sights of bison, elk, moose, bear, bighorn sheep, deer, antelope and a myriad of smaller wildlife and birds all living free as nature intended. In their protected habitat, most animals are willing to be watched and photographed from a respectful distance. **Be cautioned these are wild animals and should be treated and viewed as such.**

Geyser Country

Home to **more than 10,000 hydrothermal features** in the park Geyser Country consists of **geysers, hot bubbling pools, colorful paint pots and the world famous, Old Faithful**. Don't worry about a no-show; Old Faithful has rarely missed a "performance" in more than 120 years, shooting steaming water into the sky every 81 minutes. You can walk along the steamy Midway Geyser Basin boardwalk to Yellowstone's largest hot spring, **Grand Prismatic Spring**. This 370-foot-diameter, deep blue pool is ringed with yellow-and-orange colored bacteria, giving it a cool prism effect.

Lodging can be found at The Old Faithful Lodge Cabins, The Old Faithful Snow Lodge and Cabins and the National Historic Landmark, Old Faithful Inn. Geyser Country offers a variety of dining options, gift shops, and interpretive sightseeing tours that take you closer to the land that is a reminder of the earth's fiery beginnings. Nearby, Madison Campgrounds have sites for tents or recreational vehicles.

Canyon Country

The Grand Canyon of Yellowstone is the most breath-taking sight inside Yellowstone National Park. Over 10,000 years in the making by the natural process called erosion and almost **twice as high as the Niagara**, these 20 miles of twisting canyon and sheer rock cliffs have been carved 1,200 feet deep and up to 4,000 feet wide. From several vantage points, you can view the Lower Falls plunging 308 feet steeply into clouds of mist, or the Upper Falls tumbling down 109 feet. You may also visit **Hayden Valley, one of the top spots for wildlife viewing in Canyon Country**. Glaciers have shaped the ancient lakebed and deposited the soil that makes this a supreme wildlife habitat. In Canyon Country you will find dining, cabins, two lodges and campgrounds.

Roosevelt Country

Named after the 26th president, Theodore Roosevelt, who once camped near the area, The Old West comes alive in Roosevelt Country. This is the land of rolling sagebrush, fir, pine, spruce covered hills, and streams full of trout. **The Lamar Valley is perfect area to watch wildlife in their natural habitat roam.**

While in Roosevelt Country stay in the rustic Roosevelt Lodge Cabins, built in the 1920's near Yellowstone's Tower Falls area. Awaken your "Old West" spirit and enjoy horseback trail rides, stagecoach adventures and the popular, Old West Dinner Cookout, where the steaks are tender, breathtaking scenery, and all are friendly.

Mammoth Country

Few of Yellowstone's hydrothermal features have the sheer grace and beauty of **Mammoth Hot Springs**. Mineral-laden hot waters from deep beneath the earth's crust find their way to the surface and build tiers of cascading, terraced stone. Begun thousands of years ago, the sculpturing of the terraces continues as thousands of gallons of water well up and deposit large amounts of travertine daily.

Mammoth Country is home of the **only winter location in Yellowstone that is accessible by automobile**. Located near the North Entrance, the Mammoth Hot Springs Hotel offers comfortable accommodations and exquisite dining in a casual setting.

In winter, miles of Yellowstone back country offer **groomed roads for snowmobilers and cross-country skiing** on tracked trails. Continue your stay in Mammoth Country with **snow coach tours, ice skating and wildlife tours**.

Lake Country

In Lake Country, visit one of the world's largest alpine lakes, **Yellowstone Lake**. The lake sits within a large caldera that was born by fire and ice of volcanoes and then carved and filled by glaciers over centuries ago. Lake Country is the realm of native cutthroat trout that migrate into meadow streams to spawn, and you may also watch moose, bison and bear, which will wander the cold shores during the winter time in Yellowstone.

Snow Coaching

Snow coaches are **a cross between a bus and a snowmobile**. These strange looking machines provide comfortable form of winter transportation into the park. Equipped with heaters, large windows and roof hatches, the snow coach has been transporting winter visitors into Yellowstone National Park for more than 25 years. Snow coaches are equipped with ski racks and room for other equipment. Those interested in cross country skiing or overnight stays may want to take advantage of Yellowstone in the winter.

There are two entry locations for snow coaching in the park – West Yellowstone and Mammoth Hot Springs.

Motels and snow coach reservations must be made in advance. You may book individual seats or charter the entire coach for one day.

Snowmobiling & Cross Country Skiing

Both cross country skiers and snowmobilers will enjoy the **1,000 miles of trails** available in Yellowstone National Park. The United States Nordic and Biathlon teams train in this beautiful area. The west entrance of the park is only minutes from West Yellowstone, a town where snowmobilers share the streets with motorists.

Boiling River

Located approximately 100 miles from Bozeman, is the town of Gardiner, and the North Entrance to Yellowstone National Park. Just a few miles into the park, visitors will enjoy Yellowstone National Park's most popular soaking area, Boiling River. The 6-foot-wide stream pours over travertine ledges into the swift-flowing Gardner River, where it mixes with cold river water. The water level in the Gardner River determines the temperature of your soak. You may encounter a blast of hot water on your back, while at the same time your toes are shivering in the icy river water, but most bathers eventually find just the right spot for their thermal tastes. Geologists suspect that the Boiling River's 100-yard channel of 140-degree-F hot water is the underground flow from Mammoth Hot Springs, some 2 miles to the south.

Boiling River is the largest discharge of thermal water in Yellowstone, and at times will accommodate 150 people in the warm water. The attractiveness of this soak is no doubt attributable to its easy access from the North Entrance Road, the beautiful location, and excellent soaking opportunities.

HORSEBACK RIDING

Seeing the West from the saddle is part of the classic. This activity is enjoyed by individuals of all ages. Several local outfitters offer a wide variety of horseback riding options in the Bozeman Area. Hourly, half-day, or full-day rides can be combined with other activities such as rafting, hunting, and photography.

Wrangler-lead expeditions include everything from leisurely rides through pine forests, sagebrush flats and hanging meadows to more rugged trips up back country switchbacks and over mountain streams. The unparalleled views of the Gallatin Valley wilderness, in addition to the wide variety of wildlife, are likely to make this a memorable family activity.

Boating and Jet Skiing

Boating and Jet Ski enthusiasts in Bozeman are not far from fun! Ennis Lake (50 miles southwest of Bozeman) is formed by the Montana Power dam on the Madison River at the head of the Bear Trap Canyon. The lake is fairly shallow with an average depth of 8 feet, 20 feet at the deepest. This means the water is warm and just right for water sports, particularly in the morning before any afternoon winds. Canyon Ferry Lake (70 miles northwest of Bozeman) is very popular and receives the most use of any lake in Montana, due to its size and location. Canyon Ferry covers 35,181 surface acres and 76 shoreline miles. Harrison Lake (50 miles west of Bozeman), also called Willow Creek Reservoir, fills from water running down the eastern slopes of the Tobacco Roots and also offers scenic boating, waterskiing and jet skiing opportunities.

River Rafting | Kayaking | SUP

The Yellowstone, Gallatin and Madison Rivers, once used by Indians, trappers, and early explorers as access to the mysterious Yellowstone wilderness, now provide excellent recreation for whitewater enthusiasts coming to the Bozeman Area.

Located less than a half hour drive southwest of Bozeman, the Gallatin River offers the most challenging rafting near Yellowstone National Park. The Gallatin is a small river that runs through a rocky canyon, providing incredible views of mountain meadows and towering cliffs. In June, when the water is high certain stretches of the river are class IV+. For people seeking a milder experience, there are many other areas of the Gallatin that offer fun but less challenging rapids. As the water level drops, the intensity of the rapids subsides, but even in August, there are challenging and exciting stretches of this amazingly scenic and magical river. Local outfitters offer half day and full day trips suitable for all levels. It's recommended that only experienced boaters plan for an unguided trip down the Gallatin.

The Yellowstone River runs out of the north entrance of Yellowstone National Park, and commercial rafting is available out of Gardiner, about 1.5 hour drive southeast of Bozeman. The Yellowstone is a big volume river with rolling waves for an exciting ride. The Yellowstone has many different flat water stretches suitable for canoeing, rafting and kayaking.

The Madison River, located west of Bozeman has a one day stretch of class 3-4 whitewater, through Bear trap Canyon. Because of its remote location, this float requires an advance shuttle. Below the Bear trap, flat water sections of the Madison are popular for tubing, canoeing and drift boats throughout the summer time!

Don't miss an opportunity to explore all the amazing views & rivers!

Tubing

By far the most enjoyed activity by the locals! Floating the Madison River is a treasured pastime and a “must do” when you visit the Bozeman Area. The most popular section of the Madison River Float is a relaxing and fun 6 ½ miles. The float parallels Hwy 84 through the Madison Canyon about 24 miles west of Bozeman. The fun begins at the Warm Springs put-in and end either after 6 ½ miles at the Blacks Ford take-out or, for a more adventurous trip, ends after 11 miles at the Greycliff camping and day-use area. If you wish to get a little more off the beaten path, try floating the Jefferson River in the Three Forks area.

FISHING LICENSE INFORMATION

Licenses can be obtained at the Fish, Wildlife and Parks office or at most fishing and sports stores. Non-residents should check with Montana Fish, Wildlife and Parks for specific licensing requirements.

<http://fwp.mt.gov/fishing/license/applications.html#fishing>

If you have lived in Montana six months or longer, you are considered a resident and may apply for a resident license with certain requirements.

LICENSE REQUIREMENTS

To fish in Montana, anglers need their conservation license, Aquatic Invasive Species Prevention Pass, and a fishing license. A conservation license is needed before you can buy any fishing or hunting licenses that Fish, Wildlife and Parks (FWP) issues. Conservation license applicants are required to provide their social security number in addition to information usually requested. A valid driver's license or a valid Photo ID is required to purchase a license. A fishing license allows a person to fish for and possess any fish authorized by the state's fishing regulations. It is nontransferable and nonrefundable. The license enables one to fish from March 1 through the end of February of the following year.

FISH TECHNOLOGY CENTER

A tour of this center shows dedicated staff performing research of fish cultural techniques, fish diseases, fish-fed development and testing, broodstock diet testing, and fishery management. Technical assistance in these areas is provided to federal and state fisheries agencies and the private sector throughout the United States.

CATCH & RELEASE

The practice of catch and release is one that has grown extremely popular among Montana trout fishermen and has proven to be one of our best means of ensuring the quality of our fisheries for years to come. Important steps to releasing fish without harm include using barbless hooks, keeping fish in the water while removing the fly, wetting hands before handling fish for a picture, and avoid battling fish to exhaustion. When handling fish, cradle the trout gently with the hands under the belly and avoid squeezing fish — they do not bite! If reviving a fish is necessary, hold the fish gently with its head into the current until it swims away on its own.

"From the pocket water of Gallatin Canyon to the long riffles of the Madison and the classic runs of the Yellowstone, it doesn't take long for an angler to realize that southwestern Montana is home to some of the nation's finest trout fishing. Centrally located, Bozeman offers prime access to each of these blue-ribbon streams, not to mention an endless array of smaller stream and stillwater options. Native cutthroats, wild rainbows and browns are abundant in most area waters and are ripe for the picking almost year-round. Be it winter or summer, opportunities are widespread — check with local shops for updated information on current conditions and guided trips."

— Dave McKee, Bozeman Daily Chronicle columnist

Aquatic Invasive Species

PROTECT MONTANA WATERS – GET AN INSPECTION

To protect against the spread of aquatic invasive species, Montana law requires anyone coming into the state carrying or towing watercraft (motorized and non-motorized) to get an inspection before launching.

Montana law states:

- Persons transporting watercraft must stop at all open watercraft inspection stations as directed by signs.
- Persons transporting watercraft from east to west over the Continental Divide must be inspected.
- It is illegal to transport AIS into or within Montana.
- It is unlawful to transport baitfish into Montana. Leeches may be imported if purchased from an approved dealer and accompanied by a receipt.
- It is unlawful to move live fish, aquatic invertebrates, or plants from one body of water to another.
- It is unlawful to release any live aquarium fish.
- For more information call: 406-444-2440
- Visit: www.CleanDrainDryMT.com
- Facebook: Protect Our Waters Montana

Keep your boat and gear clean and free of debris.

Clean, drain and dry your boat and gear between uses to stop the spread of aquatic invasive species such as zebra mussels, invasive weeds, and disease-causing organisms.

Aquatic Invasive Species (AIS) are organisms that are unintentionally brought into Montana from other places. These include clams, fish, mussels, plants, weeds, and disease-causing pathogens.

AIS are not wanted here. They overwhelm lakes and rivers, kill fish and plants, and damage the delicate ecosystem that keeps our waters clean and abundant. AIS harms our recreational and agricultural resources by damaging boats and gear, clogging water pipes and hydropower facilities, jamming community water sources, and choking off irrigation systems.

AIS can be spread when anglers and boaters fail to clean, drain and dry their watercraft and fishing gear when moving from one body of water to another.

This illustration shows the key areas to **Clean**, **Drain & Dry** on any watercraft.

How to Prevent Spread

Be aware that aquatic diseases and invasive species can easily spread from one water body to the other. Anglers, boaters and their equipment can transport these pests. It takes only one mistake to infest a new area. To protect Montana's waters and native aquatic species, please follow these guidelines:

1. CLEAN

Completely remove all mud, water and vegetation from your boat, trailer, anchor, waders and other fishing and boating gear. Pay attention to crevices and hidden areas.

2. DRAIN

Remove the drain plug before leaving the access area. Drain all water from watercraft including the bilge, live well, engine, internal compartments and bait buckets. Draining remove small and invisible organisms, such as invasive mussel larvae, that can be found in standing water.

3. DRY

Aquatic invaders can survive only in water and wet areas. By drying your boat and fishing equipment thoroughly, you will kill most invasive species. The longer you can dry out your boat, trailer, waders, wading boots, and other equipment between trips, the better.
