FLEXIBLE SOLUTIONS FOR SOCIAL DISTANCING

FROM CAR TO TRUCK AND EVERYTHING IN BETWEEN

Protecting the safety of employees and those they come into contact with on a daily basis is of paramount importance to Enterprise and our customers.

Whether it is people or goods, small vehicles or large, the need to social distance has called for innovative solutions and rapid response times.

Enterprise Flex-E-Rent continues to support customers with creative adaptations and additional vehicles to keep business moving.

FLEXIBLE SUPPORT FOR ESSENTIAL CARE

With 46 residential care homes across the UK, Sunrise Senior Living needed to ensure that staff could get to work safely during the pandemic whilst continuing to provide essential patient care and resident travel.

The MPVs provided by Enterprise Flex-E-Rent were selected to enable social distancing for up to four people and were fitted with a tail lift and two wheelchair points so as to make them ideal for wheelchair-bound residents.

The flexible maintenance and support package provided for each vehicle has reduced maintenance related vehicle off-road time by up to 90%.

We immediately hired 36 seven-seaters from Enterprise for staff travel because we needed to safeguard our employees and offer an alternative to public transport... the minibuses are on the road more of the time and able to support more activities.

Chris Dean

Procurement Director, Sunrise Senior Living UK

ADAPTED VEHICLES FOR SAFER TRANSPORT

To ensure a consistent level of service and support throughout the pandemic, Enterprise Flex-E-Rent has kept every one of its 28 depots open, with staff specially trained to help customers adhere to the latest health and safety guidelines.

In some cases this has meant supplying additional vehicles at very short notice. In others, innovative vehicle adaptations were needed using protective screens, dividers or pods, as well as adjustments to how goods and equipment are stored.

In each case, an innovative solution was required, one that minimised business disruption and protected employees whilst still being flexible enough to adapt in a rapidly changing environment.

Enterprise has been working closely with customers to understand what social distancing means to their business...our capacity to adapt a wide range of vehicles based on bespoke requirements and to supply additional units at short notice has been a critical part of our flexible support programme.

Danny Glynn

Managing Director, Enterprise Flex-E-Rent

HOW CAN WE HELP YOU?

One of the most important things we do at Enterprise is to listen to our customers. This is especially true during times of economic uncertainty when planning is difficult and requirements can change at a moment's notice.

As your complete mobility provider, we'll make sure you can always scale your fleet up or down to meet changing levels of demand, without incurring any penalties. No matter how quickly things change, you'll only have the vehicles you really need to keep your customer promises.
