

Distance Learning Programme

Distance Learning Programme

Distance Learning (DL) are Self-paced online training programmes, delivered over 4-10 months duration, designed for working professionals to gain Construction and Real Estate focused knowledge.

300+ professionals successfully completed various certificate courses.

RICS Distance learning courses offers case study-based approach from foundation to intermediate and advanced levels. These structured, highly detailed courses enable the candidates to apply their knowledge in professional careers. The delivery of these programmes is seamlessly conducted on the global platform www.academy.rics.org where the candidates experience interactive learning from range of engaging resources including video, audio and readings along with regular web classes led by the course trainers. The courses also engage the enrolled candidates in peer learning via online discussion forums with international peers to learn about global best practices and challenges.
