

Specialized Manufacturing Technician (\$5,000 Relocation Bonus)

What You'll Do:

- Identify trends, periodically analyze equipment/machine problems, perform necessary adjustments on manufacturing equipment, identify root causes and initiate corrective actions
- Coordinate efforts between operations and engineering functions
- Set up spare parts, optimize PMs, keep process parameters updated
- Identify best practices and create standards combining available information & knowledge.
- Follow plant safety and environmental policies, and keep work areas clean and orderly
- Utilize plant systems e.g. SAP, MES, OPCON, Promaster, Tableau, etc.
- Utilize IPN resources where necessary
- Trouble-shooting equipment-related electrical issues

What We Are Looking For:

- Must have a High School Diploma or GED equivalent
- Must be at least 18 years or older
- Minimum two years of experience in manufacturing assembly or machining
- Mechatronics training preferred
- Electrical/electronics background, working with PLCs, drive systems, etc.
- Must be able to communicate effectively with supervision and other personnel with the ability to create clear technical instructions
- Familiar with Microsoft Office suite (Word, Excel)
- Basic knowledge of pneumatics, hydraulics, print-reading and mechanics
- Must demonstrate mechanical proficiency, leadership ability, and teamwork
- Must be willing to work on alternate shifts and must demonstrate the ability to adapt to changes
- Must be flexible to work other shifts for training, coaching, projects and travel as needed
- Must have assessed into SpecTech job category

Compensation:

- Starting hourly pay of \$29.14 per hour*
- Multi-shift availability
- \$5,000 Relocation bonus for out of market candidates
- \$5,000 Sign-on bonus
- Eligibility for a pay progression after 6 months of work
- Full benefits package (Visit www.boschcharleston.com to see full list of benefits)

*Starting wage includes a shift differential as this position is an *off-shift* or *non-first shift* position.
