Disasters Happen. Concordance Has You Covered.

During disasters or other catastrophic events, the healthcare supply chain can experience distinct strains depending on the nature of the event and the impact on surrounding infrastructure. At Concordance our core competency is getting product where it is needed and when it is needed. As critical suppliers to healthcare providers, whether it's a natural disaster, human-caused disaster or a public health threat, Concordance has you covered!

Concordance will work with you to:

- Establish key contact methodology and protocols
- Define "standing orders" in case of communication failure
- Identify, quantify and store your emergency supply requirements

Off-Site Storage/Emergency Reserves

Concordance warehouses are safe, clean, insured and staffed by a team of experts that know how to handle emergency medical supplies. Whether you need temporary or long term secure storage, Concordance can pick up, deliver and, if necessary, quarantine, monitor and rotate date-sensitive materials.

EMERGENCY PREPAREDNESS

Continuity of Supply

Whether it is natural disasters like Hurricane Katrina, human-caused disasters like 9/11 or the Covid-19 public health crisis, Concordance can assure you have what you need to provide care. Concordance works with our supplier partners to understand and manage the impact on product supply and collaborates with trade groups, including the Health Industry Distributors Association (HIDA) to respond to industry-wide challenges. We follow the guidelines set forth by the government, including the Centers of Disease Control and Prevention (CDC) and the World Health Organization (WHO). We continue to engage with customers, industry experts and government officials to assist customers in urgent need of medical supplies.

Defining Your Needs for Potential Events

- Formularies
- Contact Lists
- Back-Up Plans
- Standing Orders
- Quarantined Inventory

Partnering with the Community

Concordance has a proven track record working with the community to respond to crisis situations:

- Established interfaces with Federal, State and Local emergency teams including FEMA and Homeland Security
- Distribution centers located in accessible central geographic areas
- Logistics support to other healthcare suppliers and the ability to serve as a staging area for dissemination of critical supplies like food and water
