*Please fill out one sheet for each water tank you order.

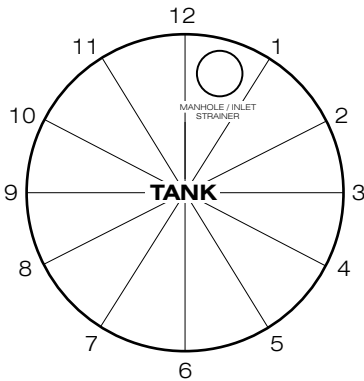

Round Tanks

Outlet

Outlet

Positioned slightly above the bottom of the tank side wall and is where you connect your tap for draining.

Please mark an **X** on the illustration below where you would like your outlet to be. **This can be positioned at any location from 1 to 12 o'clock.**

Choose outlet size:

- 40mm (standard)
- 50mm
- 80mm (additional cost)
- 100mm (additional cost)

90mm PVC overflow

Overflow

Positioned at the top of the tank side wall and is designed to prevent the tank overflowing in an uncontrollable manner.

Please mark an **O** on the illustration below where you would like the overflow to be. **This can be positioned at 3, 6, 9, or 12 o'clock.**

Threaded inlet (optional)

Threaded Inlet

Required only if you are pumping into the tank or filling from a bore. NOT when filling from a roof to collect rainwater.

We recommend this is fitted at 12 o'clock so it can be easily accessed through the manhole opening.

Choose inlet size:

- 25mm
- 32mm
- 40mm (standard)
- 50mm
