SWARCO
McCAIN 332/334 CCTV EQUIPMENT CABINET

SWARCO McCain Inc.'s 332/334 CCTV Equipment Cabinet is an industry standard 170/2070 style cabinet ideal for accommodating all your communications requirements. The quality materials used and its rugged construction make it an excellent cabinet when dependable and low-maintenance installation is required. Its 19-inch Electronics Industry Alliance (EIA) rack and modular design allow for the easy installation and interchange of standard assemblies and components. The cabinet meets all the Caltrans requirements including TEES, TSCES, and FHWA.

KEY BENEFITS

• Provides dependability with rugged construction

• Allows easy access to the cabinet's large interior through the double doors

• Provides maximum security using 3-point latching system with industry standard locks

• Reduces the effects of vandalism with anti-graffiti coating

• Assure interchangeability between manufacturers with standard assemblies
PRODUCT DESCRIPTION

The McCain 332/334 CCTV Equipment Cabinet is designed to house 170 or 2070 controllers as well as equipment necessary for CCTV and communications requirements. This robust cabinet is constructed from marine-grade aluminum and is accessed via a front and back door making it durable and easily maintained. The cabinet comes equipped with an industry standard 19-inch EIA rack.

The standard cabinet offers a service panel with four circuit breakers: Main, Clean Power, Raw Power, and an Equipment Circuit. Also included is a fluorescent lamp controlled by a door switch and a thermostat-controlled exhaust fan.
The cabinet is secured via a 3-point latching system and protected with a padlock providing secure installations and easy access for maintenance.
