

PointRight[®]

Unlock the Power of Advanced Analytics for Post-Acute Performance

The PointRight® Difference

We align providers and payers around value-based care initiatives using post-acute data.

- ✓ Advanced analytics that tap into the power of prediction for data-driven decision-making
- ✓ Clinical, software and data science experts that ensure our analytics work smartly and efficiently in your workflow
- ✓ Proven value across the post-acute care continuum

An abstract graphic in the top right corner consisting of light blue lines and dots, resembling a circuit board or data flow diagram. The lines are thin and connect various circular nodes of different sizes. Some lines end in arrowheads pointing right.

Advanced Analytics

The Power of Prediction

Advanced Analytics Platform

Analytics that tell you where you've been and, more importantly, predict where you could go.

What makes PointRight's analytics different?

- ✓ Cohort-specific risk-adjusted outcomes
- ✓ All-payer outcomes
- ✓ Outcome indicators that are current

Advanced Analytics Platform for Care Management and Facility Performance

RADAR®

Get predictive early-warning system for interventions and care transition planning

Data Integrity Audit (DIA)

Ensure data quality and integrity of patient assessments

Quality Measures

Enable quality improvement initiatives at the patient, facility and system levels

PointRight® Five-Star FastTrack®

Interactively monitor and improve your Five-Star rating

PointRight® Pro 30® Rehospitalization

Monitor and manage rehospitalizations

ScoreCard

Compare SNF performance across the market

Dashboard

Measure, monitor and manage SNF performance

Patient Management

Population Management

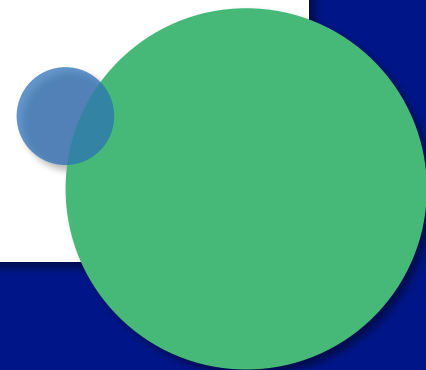

Facility Performance

Network Performance

The National Quality Forum (NQF) has shown its trust in our analytics by its decision to adopt and to endorse our PointRight® Pro 30® and PointRight® Pro Long Stay™ measures.

Clinical Expertise

Put Advanced Analytics to Work

Relevant, Valid and Actionable Analytics

We provide data that gets used.

What makes PointRight different?

- ✓ Our expert team of clinicians, data scientists and software developers ensure integration of our advanced analytics into your workflow
- ✓ Ongoing support through consultation, continuing education and on-demand training show you how to leverage our analytics for continuous improvement in outcomes and performance

An abstract graphic in the top right corner consisting of thin, light blue lines that form a circuit-like pattern. The lines are interconnected at various points, with some ending in small circular nodes and others in triangular arrowheads pointing in different directions. The overall effect is that of a complex, interconnected network or data flow.

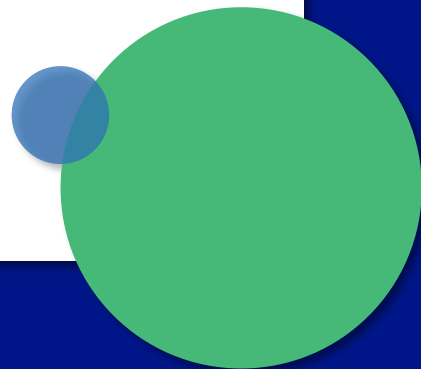

Value for Our Clients

“PointRight enabled us to realize a 13% reduction in post-acute care costs by filling the gap in our performance measurement process with clinical quality data that we could not get anywhere else.”

Todd Warden

MD, CMIO & Medical Director, Lourdes Health Network LLC

PointRight Clients Can...

- Ensure accurate and compliant patient assessments
- Lower re-hospitalization rates
- Close care gaps
- Optimize care transitions
- Improve quality and ensure compliance
- Build and manage provider networks
- Market competitive performance for improved referrals

PointRight's Health Systems and ACO partners have experienced Generated Savings of \$101.9 million. PointRight's MSSP partners have realized Earned Shared Savings of \$57.8 million.

Be Confident in Your Decisions

Our 2,500+ clients have the right data to make decisions confidently for patients and across facilities, populations and networks

Providers and payers alike use our analytics as decision support tools to –

- Further clinical, financial and operational objectives
- Foster alignment across the post-acute care continuum
