ABOUT CORINIUM

Corinium is globally renowned for our leading conferences, market research and the best real-time digital learning opportunities.

Our events offer incredible insights from the world's leading experts across the IT Security sector.

ABOUT CISO AFRICA: LIVE

CISO AFRICA LIVE 2021 third edition offers a complete, immersive virtual conference and exhibition experience.

Achieving the right balance between digital transformation and cybersecurity governance.

As more and more employees are forced to work remotely, organisations face increased threats and attacks.

There has never been a more pressing need for CISO leaders to arm themselves with the information and tools to guard their organisations against these threats and attacks.

Thank you for this well organised event. It was highly informative and will definitely benefit from some of the messages from the engagements.

IT Security Governance Manager
Auditor General South Africa

I really enjoyed the event – it provided a lot of insight on some of the core topics of the day. The session, documentation and exhibit hall was easy to access as well as the quality of the presentations and sound. Looking forward to the next one!

Executive – IT Security, Edcon

... I enjoyed the event and using this platform

Threat, Intel and Cloud Security,
Old Mutual

Thanks for the event.
The interface/system
CISO Africa live is using
is excellent!

Metropolitan Health, IT Development Manager

Great Presentations

Information Security
Specialist
National Health
Laboratory Services

EVENT FORMAT

Immersive, virtual conference experience:

Corinium's Virtual Events include speaker chat rooms, networking areas, expo halls and more, and are an excellent way to engage with a live, captive, and engaged audience.

Interactive 2-way video roundtables:

Moderate an interactive discussion group on a topic most interesting to our attendees or host a lunch/ breakfast invite-only round table and we'll send the attendees meal vouchers right to their location!

Live-streamed sessions general/tracks:

Sponsored speaking slots now available!
The audience can access multiple live-stream sessions throughout the event, with attendee lists and breakdown of activity shared with sponsors.

Virtual solutions hub with live chat functionality:

Engage virtually with attendees, share your solutions and content via a page on our solutions hub and be provided with visitor metrics post event so you can drive an effective lead nurturing campaign.

On demand content:

All content is available for 30 days post event. You will be sent your recorded session.
