

Your Safety Is Our Priority

We want to make sure that when you attend one of our events you'll be 100% safe and comfortable. COVID safety protocols are at the top of our agenda and will be implemented from the word go!

- 1** We've got all the **relevant health authority rules and regulations** in place to screen you and your fellow attendees. This includes temperature checks and other screening processes before entering the event.
- 2** The event will be held in an **open air venue**. The carefully selected venues also maintain and guarantee health & safety protocols.
- 3** We know you enjoy coming to our events, but we're only allowing **70 attendees per event**. This is 30% less than the current allowance for outdoor events.
- 4** Our seating will keep you a comfortable **2m away (aka social distance)** from other attendees.
- 5** We've developed a **self service registration** – this means none of our friendly staff will have their hands on anything you need.
- 6** There will be **sanitising stations** all around the venue.
- 7** All your **meals will be served packed and sealed** for your safety.
- 8** We're even going to make sure you're protected with our **Corinium mask and sanitiser packages**.
- 9** Although we are confident in our **support staff**, we'll be limiting the number that will be at the event.
