PROGRAM DETAILS

Whether you're a seasoned Medical Assistant looking to expand your marketability and income or are a newcomer to the clinical healthcare industry, training to become a Cardio-Phlebotomy Technician can set you apart in a competitive job market. Combining the skills of both the EKG Specialist and Phlebotomist provides valuable data that can lead practitioners to a diagnosis and lifesaving treatment. This career can offer opportunities in a variety of medical settings and is ideal for individuals who like hands-on work where direct patient interaction is a part of daily professional life.

MedCerts online program prepares students for a multitude of careers in the medical field. Students will gain knowledge of medical terminology, anatomy, and disease processes, understand the responsibilities related to performing EKGs, applying Holter monitors, assisting cardiologists with stress tests, phlebotomy and more! This is learned through a variety of eLearning components designed to keep students engaged and entertained throughout their training. The Cardio-Phlebotomy courses include video-based lectures delivered by expert instructors, simulations, 3D video demonstrations, 3D interactive environments, games and many other learning tools.

Upon completion of this program, MedCerts will assist students in seeking an Experiential Learning opportunity, where they can demonstrate hands-on skills in a real-world environment proctored by a licensed/certified professional. Graduates will then have met the training requirements to sit for the CPT exam and the CET exam, both issued by the National Healthcareer Association (NHA) and included in your tuition cost!

COURSES

- CS 1011 Customer Service Professional - Level I
- HI 1014 Human Anatomy and Medical Terminology
- HI 6011 Phlebotomy
- HI 6012 Electrocardiography
