

Care Worker Mobile App

AlayaCare's intuitive and feature-rich app provides real-time access to schedules, route details, billing, safety, time tracking, patient data, and form reporting all in one place.

The Future of Home Care, Right at your Fingertips.

Providing your field staff with access to important visit and client information from anywhere, on any device so they can focus less on administrative tasks and more on providing the highest quality of care.

Electronic Visit Verification

No more time sheets with GPS-based clock in/clock out and Telephony (IVR)

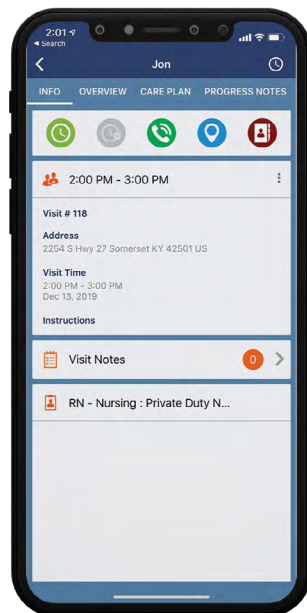

Point of Care Documentation

Easy access to client care plans and medical history

SMS Visit Offer Notifications

Communicate visit offers via email and SMS in English or French

Real-Time Communication

View schedule updates and employee unavailability in real time

Increased Safety & Security

Ensure data security with session timeout measures and a secure log-in

Multi-Language

Mobile app available for caregivers in English, French and Spanish

Better Technology, Better Outcomes.

The Future of Home Care Right at Your Fingertips

Access via Smartphone, Tablet or Laptop

Seamless user experience across multiple channels allowing your home care agency to provide the highest quality of field and mobile care, while evolving your technology mix at your pace and budget.

- ✔ Offline capabilities enabling care providers to document without internet access to prevent lost data entry.
- ✔ Secure smartphone and tablet apps supporting iOS and Android
- ✔ Care providers have easy access to their schedules, visit information, client care plans and more.

Configurable, Secure Charting and Forms

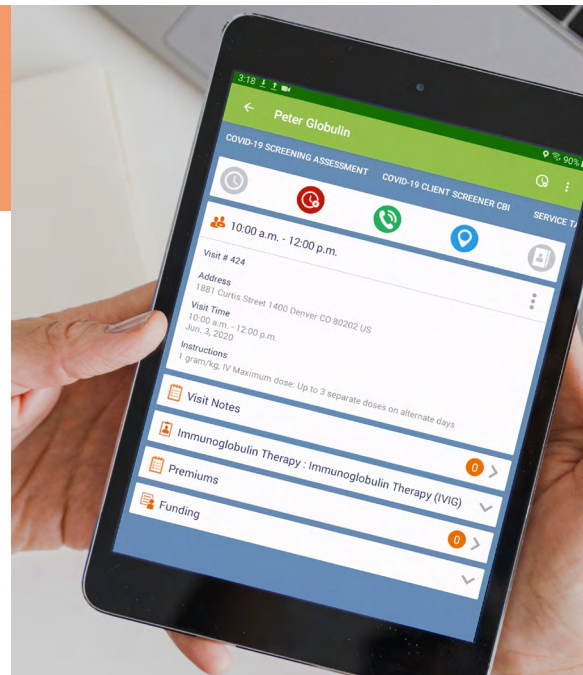

AlayaCare offers custom and configurable forms for your agencies documentation needs, standards and workflows.

- ✔ Rich and secure clinical data access to prevent uninformed client visits.
- ✔ Field forms including signature capture, photography and diagrams to support all home health care scenarios.
- ✔ Capture progress notes hands-free with voice memo updates.

GPS for Billing, Payroll and Electronic Visit Verification (EVV)

Leverage smartphone GPS data to provide accurate and audit friendly time and attendance, while also providing a tremendous security tool for your field staff.

- ✔ Location used for Electronic Visit Verification (EVV) to audit visits for billing and reporting.
- ✔ Accurate time stamps courtesy of GPS reducing over-payment scenarios.
- ✔ Capture employee coordinates when they clock in or out using the mobile app.

“

“Before AlayaCare, the nurses did not have access to client information prior to going into the home to make a visit. Since AlayaCare, the nurses are much more prepared, since they have access to all the information they need right at their fingertips.”

Nancy Flynt
Administrative Manager

Better Technology, Better Outcomes.
