# AlayaCare's all-new Data Exploration

Make data-backed decisions with powerful custom reporting and built-in analytics

▶ Responsive user-interface

▶ Custom report builder

▶ Flexible dashboard

Translate data into insights that make an impact

Collect, visualize and analyze your data through configurable reports and dashboards. It's everything you need to be a better, data-driven care organization.

Gain easy access to essential metrics and KPIs such as:

- ✓ New client pipeline and referrals
- ✓ Scheduler utilization
- ✓ Continuity of care

- ✓ Visit variance
- ✓ Care plan adherence
- ✓ Gross margins

- ✓ Caregiver retention metrics
- ✓ Mileage and overtime reports
- ⊕ And more

Benefits

Get a 360° view of your business

Access end-to-end reporting to help you identify trends and gain insights into the health of your business.

Access for everyone

Provide your team with access to monitor, analyze, and act on different key metrics according to chosen permissions.

Trust your metrics

Define the metrics that drive your business, while giving everyone single-point access to trustworthy data.

Better Technology, Better Outcomes.
