

The New Standard of A3 MFPs

The TASKalfa 3554ci Series offers greater productivity, reinforced security, and Kyocera's proven reliability.

Increased productivity

New enhanced accessory additions such as the DP-7170 boast tremendous speeds and capacities (320 originals at a time), using an ultrasonic and optical sensor for efficient quality.

Easy to use

With a new, simplified user interface, the TASKalfa 3554ci & 2554ci combine a unique product design with intuitive features for an all-round pleasant printing experience.

Maximum protection

By equipping your devices with the latest security solutions and updates, you can rest assured that your valuable data always receive the best protection.

Your output your way

With artificial intelligence functionalities, the TASKalfa 3554ci series enables you to personalise your documents efficiently as well as improve low resolution images to make an impact.

TASKalfa 3554ci Series

Print and scan speeds

The new TASKalfa 3554ci Series offers users print speeds of 35 PPM (mono/colour), an increase from the 32 PPM of TASKalfa 3253ci Series. Scan speeds of 200 ipm (mono/colour) represent an 11% increase from its predecessor.

Increased capacity

With a max paper capacity of 320 sheets, an 18.5% increase from the previous model, the TASKalfa 3554ci Series has been designed to go the distance. Less time spent refilling paper trays = more time for what matters.

Power Consumption (Sleep mode)

During Sleep Mode, the TASKalfa 3554ci Series consumes 0.5W or less, a substantial decrease from the 0.7W of the TASKalfa 3253ci Series. With improved CPU, users can boost their productivity while consuming less energy, thus reducing environmental impact.

Toner (Monochrome/Colour)

Standard toner yields have been increased. The black toner has been increased from 25K to 30K while the colour toner has gone from 15K to 20K. Therefore, print more and reduce toner replacements.

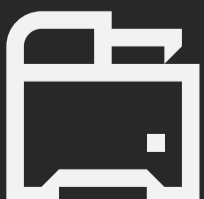

Security

The new TASKalfa 3554ci Series includes a range of new security enhancements. These include security log management capabilities, automatic certification validation, improved communication protocols, and email encryption. We keep improving ourselves to keep your data safe.

Artificial intelligence

Equipped with brand-new AI functionalities, the TASKalfa 3554ci series enables users to emphasize the handwritten part of documents while automatically converting low-resolution images to professional quality.

At Kyocera, we believe that simplicity and unbeatable quality make a great pairing. That's why, with our new TASKalfa 3554ci Series range, you get cutting-edge, yet easy to use, technology that will help elevate your productivity to new heights.
