

Deako Simple Dimmer

Vertical slide control dimming

The Simple Dimmer is perfect for homes with bright lights or for those with a love of entertaining. The Deako dimmer works with up to 550-Watt of dimmable load, allowing you to control multiple bulb types on the same circuit. It is designed to control a broad range of dimmable bulbs. The Deako dimmer features a standard paddle switch to turn your lights off or on returning the lights to your favorite level and a physical slider to control the brightness allowing you to adjust the lights quickly.

Features

- Easily upgradable
- Ability to trim switch with physical control
- Can be used in single-pole or 3-way applications, where lights are controlled from one or two locations
- Screwless faceplate
- California Title 24 compliant

Applications

- Great for dining, family rooms, bright hallways and bedrooms
