Jeffrey Collins, CPA *Senior Manager*

Jeffrey is a Senior Manager at SVA Certified Public Accountants. He has experience providing compliance support and consulting with clients on tax planning, structuring transactions, and reorganizing business structures.

Jeffrey believes that the best tax results can only be obtained by gaining a strong understanding of the client's tax situation. Therefore, he works closely with clients to understand their history, their current situation, and their plans for the future. By doing this, he often finds additional tax opportunities for clients.

While he has a special emphasis in construction and manufacturing, Jeffrey has wide experience in a variety of industries which he combines with a passion for getting the best answers for his clients.

When he's not working, Jeffrey and his wife enjoy refereeing youth soccer games and spending time with their 4 dogs.
