

A Professional Services Company

Mark Langworthy Video Bio

I decided to become a CPA about 25 years ago when I was working for another Madison area firm. I went to night school at the time, decided it was something I was pretty good at, received my bachelor's degree at that time, and came to SVA companies about 20 years ago. And took the CPA exam, passed it and the rest is history.

One of the accomplishments I'm most proud of here is the implementation of our E-invoice and E-pay system. Our clients find it very easy to use. It's very efficient from their end and from our end. It really does minimize risk as far as sharing information back and forth, invoices and the payment information from a client.

I feel very blessed in my personal and professional life that I want to give back to the community and I do so by volunteering at Agrace HospiceCare every other weekend. I am in the role of hospitality there, which is working at the front desk. When visitors come in, I show them to their loved one's room, show them where the restrooms are, show them where the kitchens are, and just help them get comfortable in coming to visit so that their days are made a little bit better.
