

QUALIFIED MEDICAL EXPENSES FOR HSA ACCOUNTS

Qualified Medical Expenses

The Internal Revenue Service defines qualified medical care expenses as amounts paid for the diagnosis, cure or treatment of a disease, and for treatments affecting any part or function of the body. The expenses must be primarily to alleviate a physical or mental defect or illness. To be an expense for medical care, the expense has to be primarily for the prevention or alleviation of a physical or mental defect or illness.

Under a rule that went into effect January 1, 2011, claims for over-the-counter medicine or drug expenses (other than insulin) cannot be reimbursed without a prescription. This rule does not apply to items for medical care that are not medicines or drugs.
