## FOR IMMEDIATE RELEASE

### ConstructSecure Recognizes its Safest Contractors and Vendors, including DVL Group, Inc.

**Bristol, Pa.** — May 5, 2020 — ConstructSecure, Inc., a cloud-based mobile platform that empowers clients to make smarter risk management decisions, has announced the recipients of its prestigious safety awards. DVL Group, Inc has received the **Gold Safety Award**. This award is presented to companies that register a safety score between 85% – 95% in the **Safety Assessment Program** administered by ConstructSecure.

“DVL Group has done a remarkable job of implementing a strong safety management system. In addition to keeping employees safe, safety performance of this caliber should reduce their insurance premiums,” says Garrett Burke, CEO of ConstructSecure.

The **Safety Assessment Program** reviews a company’s historic safety performance and current safety management systems. The platform normalizes data for vendor or contractor size and type of work performed.

The program provides thorough, objective and consistent evaluation of company performance so clients can identify, monitor, and manage risk smarter. The results provide a strong indicator of how a vendor or contractor values safety and a reliable predictor of future performance.

#### About DVL Group, Inc.

DVL is a 120+ person employee owned company headquartered in the Philadelphia metro area with a national platform backed by their people, solutions, and service. DVL has been perfecting the science of data center infrastructure implementation for 35 years and has offices across the country in Albuquerque, N.M., Denver, Colo., Harrisburg, Pa., and Salt Lake City, Utah, serving a total of 10 states. For three consecutive years, since 2018, DVL was certified as a great workplace by independent analysts at the Great Place to Work® Institute and was named *ESOP Company of the Year* in 2019 by the PA/DE Chapter of the ESOP Association.

#### About ConstructSecure, Inc.

ConstructSecure, Inc. is a global SaaS company. Our cloud-based and mobile platform empowers clients to make better risk management decisions. Proprietary algorithms, developed at an Ivy League University, leverage safety and financial indicators to accurately pre-qualify vendors. The data captured by our suite of solutions ensures that our clients, and their subcontracted vendors, are not only meeting regulatory standards but are approaching safety in a way that positively impacts their number of injuries, loss rate, EMR, defaults, insurance premiums, and their overall financial health.
