

SellerActive 

Going Live

Instructions

Once you have completed your strategy setup and added the min, max, and preferred prices, you can turn on the Outbound settings for each integration.

- In the left-hand navigation pane, select **Settings > Integrations** and then click the gear icon at the top right of the integration tiles you are ready to go live with.
- In the Outbound settings, turn on **Export and Manage Prices** on the sales channel.
 - If you are a repricing only customer, leave Export and Manage Quantities off
 - If you are using SellerActive for listing, inventory and pricing, turn on **Export and Manage Quantities**.
