

Listing Process: Part 5 Listing Status

Listing Status Definitions

- ▶ Incomplete - Items that are missing category or another required field needed for listing. Common missing fields; Shipping weight, Brand, Manufacturer.
- ▶ Ready to Publish - All required fields are filled in and the item is ready to publish.
- ▶ Queued - Will only be seen immediately after publishing an item. We are generating the file for the marketplace
- ▶ Publishing - The file has been sent to the marketplace and we are waiting for a response.
- ▶ Published - Item is published on marketplace. Please check marketplace for active status.
- ▶ Publishing Error - Marketplace or SellerActive rejected some information. We will cover Error resolution in the last step of the process.
