

## **English language arts**

Grades 3 - 9

## **Mathematics**

Grade 1 - Algebra I

# Fresh Start

---

Hit the ground running in the new school year with fresh data about what students know.

CenterPoint's Fresh Start diagnostic screener pinpoints students' understanding of the highest priority content from the previous year in English language arts and mathematics.

The real-time data can be used immediately to personalize instructional plans and help students get back on track.

The screener can be used alone, or as a part of CenterPoint's aligned suite of assessments and professional learning tools.

It's time for a fresh start.
