

TELEHEALTH VIRTUAL CARE

Conduct secure, HIPAA compliant video chats directly from your EHR while simultaneously documenting a patient encounter. This seamless workflow integration allows you to provide an exceptional patient care experience without any loss in productivity.

Quick Patient Access

Appointment Reminders

Multi-Participant Video Call & Chat

Screen Share & Capture

Bi-directional File Sharing

On-Demand Appointments

Customized Consents & Emails

Required Consents

Reversible Camera Capabilities

Duration Monitoring

“Our telemedicine visits have increased since using the Nextech telehealth solution. We can easily schedule appointments and see who is ready and waiting for the provider. It’s much easier than what we were using before.”
