

Essential “ITs” vs Enhancement “ITs”

LINCOLN
LEARNING

The Lincoln Empowered “ITs” provide students with a variety of learning objects to ensure engagement and mastery of the content. There are essential “ITs” that students should complete in each lesson: Read It OR Teach It and Show It/Apply It OR Assess It. These essential “ITs” are indicated on the following page with a red asterisk. The other “ITs” are enhancements that provide students with extra practice to extend or reinforce their learning.

Learning Objects

Read It

* **Read Its** are the primary learning tools within a course. They contain the instructional content students need to demonstrate mastery of the learning objectives.

Teach It

* **Teach Its** provide a real “teacher voice” for students working their way through a course. The intent is to guide the learner through the Read It content, calling out specific elements to which they may need to pay special attention or add clarity to specific pieces of the Read It. A Teach It can take the place of a Read It as both cover the same content with a slightly different presentation. To learn more about Teach Its, watch the [What Is a Teach It](#) video.

Practice It

Practice Its are interactive activities that may be completed online or offline. Practice Its provide the opportunity for students to check their overall understanding of the learning objectives.

Show It

* **Show Its** are non-graded activities that allow students to show mastery of a specific learning objective. Teachers can elect to make these gradable.

Answer Key

Answer Keys are included to accompany each of the Show Its. These can be hidden by teachers in the learning management system (LMS).

Apply It

* **Apply Its** are non-graded assessments that cover content from multiple lessons. Apply Its can be cumulative projects that allow students to demonstrate mastery of several learning objectives and standards. Teachers can elect to make these gradable.

Assess It

* **Assess Its** are graded assessments that allow students to demonstrate mastery of learning standards. These take the form of online auto-graded and uploaded teacher-graded assessments.

Watch It

Watch Its contain engaging videos to enhance the student learning experience. Watch Its may cover one or more standards, or they may bring abstract concepts to life.

Play It

Play Its contain exciting games to reinforce student learning. Play Its often cover one or more standards.

Reinforce It

Reinforce Its are lessons created to help students master specific learning objectives. Reinforce Its are great to review before taking assessments. They can also be used to assist students who are struggling by providing extra practice on difficult concepts.

Extend It

Extend Its are lessons created to help students extend their knowledge in specific content areas.
