# THREE WAYS ACCTTWO DELIVERS THE FUTURE OF FINANCE AND ACCOUNTING

## 1. MANAGED ACCOUNTING SERVICES

You get a team of experienced accounting professionals that can handle a CFO role through day-to-day services that would normally be managed in-house; but without the added hassles of hiring and retaining industry experts, keeping up-to-date on the latest accounting standards, and being constantly worried about internal controls.

We offer value-added services, such as:

- Preparing financial statements
- Closing the books
- Implementing new systems

It's less about the bottom-line and more about saving you time, having quicker access to financials, stability and scalability, and having the right people ask the right questions. Your congregants, donors, volunteers, employees, and community need to see success to support and sustain the vision and mission of your organization.
