

High Touch. Collaborative. Invested.

Vaco has a proven approach to creating high-performing, collaborative managed services teams with consultants spanning functional and technical skills. Our teams implement sustainable solutions across Data & Strategic Insights, Software Quality Engineering, and Application Development/Support.

Data & Strategic Insights

- Advanced Analytics & Reporting
- Strategic Data Services
- Data Engineering

Application Development & Support

- Scalable, Fully Functional Development Teams
- Top Tier Software Engineers
- Industry Trends, Emerging Technology

Software Quality Engineering

- Test Automation Center of Excellence
- Enterprise Test Strategy Implementations
- Quality Engineering/ Development

Our functional consultants span these three practice areas, roles including; **Scrum Masters, Business Analysts, Project Managers, Product Owners.**

Vaco's Unique Delivery Model

We bring it home with a delivery model scaled to fit your needs. We work arm-in-arm with the client, guiding the process, mentoring while we engage, leveraging our talent base to supplement your team. When your internal manpower capacity or expertise capability is limited, Vaco Technical Solutions responds to fill the void.

TECHNICAL SOLUTIONS TEAM

Vaco's Technical Solutions Team is here to help you meet your organizations biggest challenges with ease. We collectively carry over 75 years of experience in the Cincinnati market.
