

AZENTA
LIFE SCIENCES

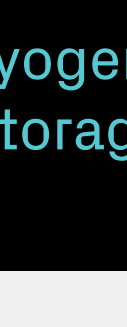

We enable life sciences companies to bring **impactful breakthroughs** and therapies to market faster.

WHO WE ARE

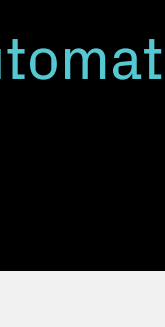

Scientists, engineers, and project managers with best-in-class expertise in

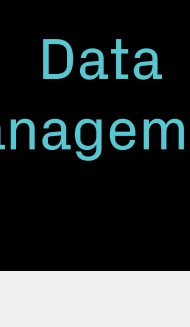

Genomics

Cryogenic Storage

Automation

Data Management

WHAT WE DO

We deliver unique, integrated, enterprise-wide solutions across **six offer categories** that help accelerate discovery, development, and delivery.

Research & Development

Pre-Clinical & Clinical

Manufacturing & Distribution

1

Genomics & Analytical Services

Sanger Sequencing
Next Generation Sequencing
DNA & RNA Synthesis

2

Consumables & Instruments

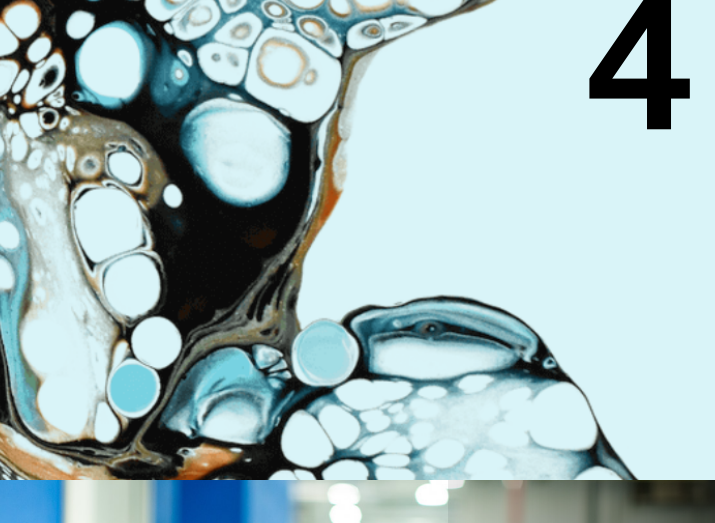

Cryogenic Storage Labware
Microplate, PCR & Sealing Consumables
Laboratory Automation Instruments

3

Storage, Automation & Logistics

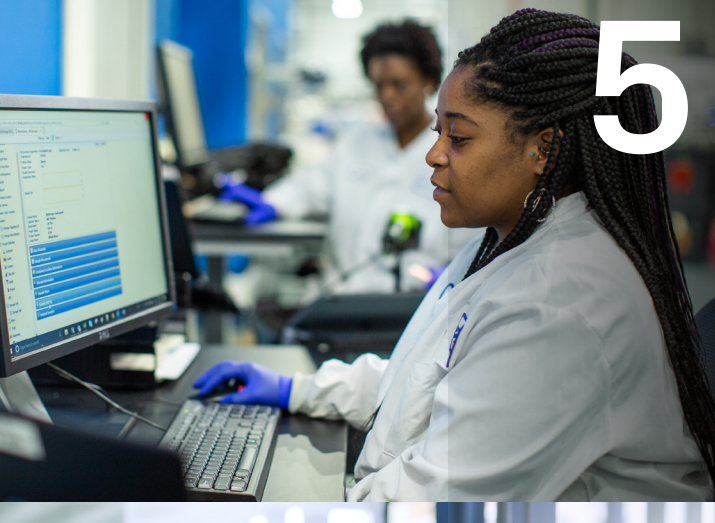

Automated Storage Systems
On-Site Sample & Material Storage Services
Off-Site Sample & Material Storage Services

4

Sample Sourcing

Biospecimen Sourcing Services
Biospecimen Collection Consultation
Clinical Trial Support

5

Data & Informatics

Sample Lifecycle Management
Product & Inventory Management
Laboratory Management Software

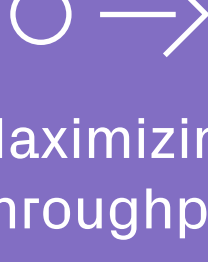

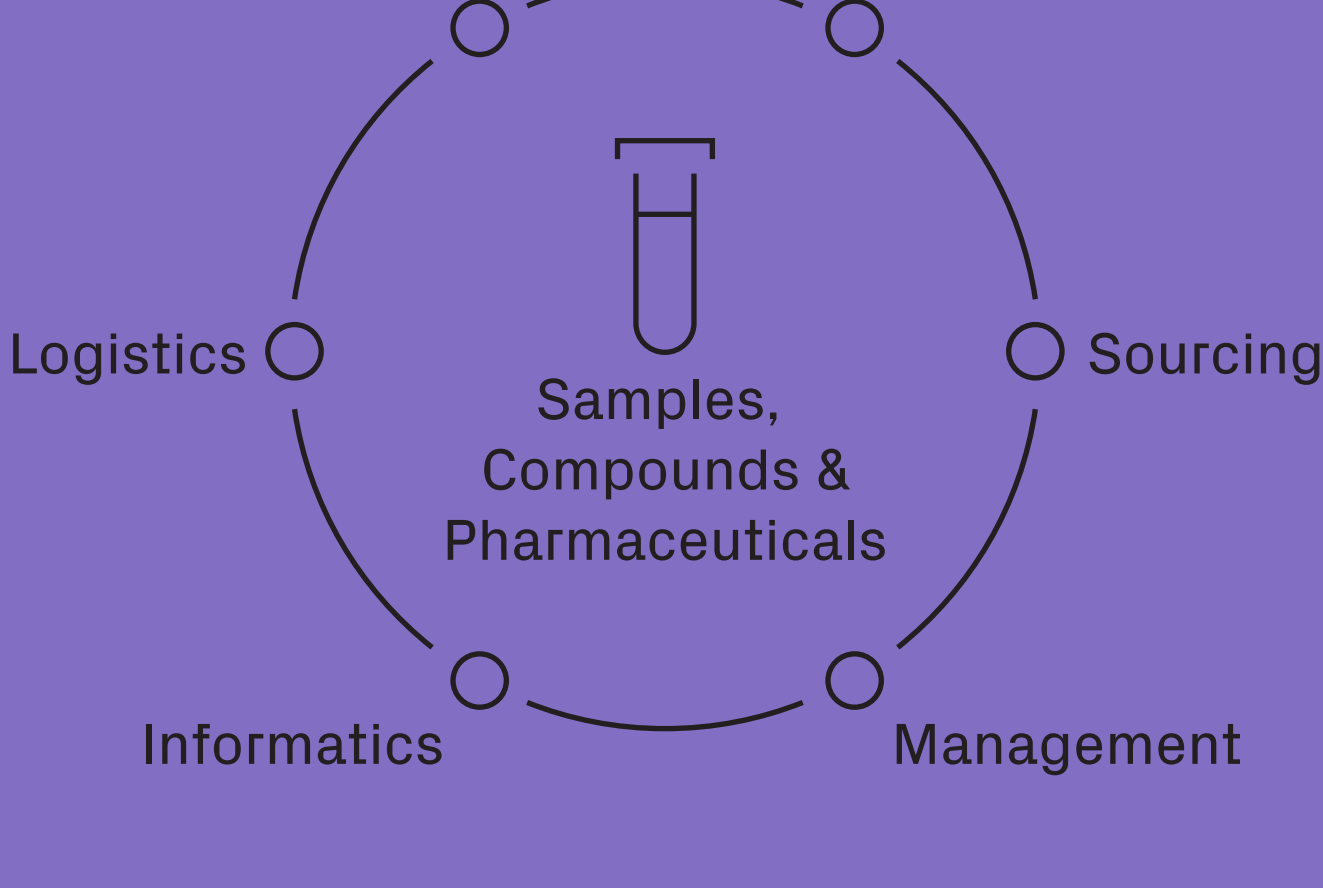

6

Consultative Services

Genomic Approaches
Clinical Trial Management
Cold Chain Logistics
Automated Storage Solutions

HOW WE DO IT

We treat every sample and process as mission-critical, driving us to create unrivaled **sample exploration and management** solutions.

Maximizing Throughput

Increasing Efficiency

Preserving Quality

WHERE WE ARE
