Casafina

B2 12-1208B

See Casafina's new organic-shaped collection, Eivissa at Atlanta. The natural curves of the stoneware collection are enhanced by its artfully reactive glazes that create perfectly imperfect patterns of beige-sand and sea-blue on the interior. No two pieces will ever look the same, giving to the table an eclectic look, without losing its casual feel.

Scheurich

B2 9-9C115

See the Lagom collection at Scheurich's booth in Atlanta. Lagom is a playful match of original charm and realistic finish - the high-quality design in yellow, grey and blue merges into a variety of interior styles and visually suits many different green plants. Getting inspired by nature is popular and creates the right atmosphere for recharging and relaxing. This fascinating design features a distinctive and glossy finish. Additionally, every pot is unique - no oval is the same as another, making Lagom radiate with distinctiveness instead of perfection.
