With the release of SOLIDWORKS MBE 3D PDF

For those using the free Acrobat reader - what does enable 3D content:

Double click a 3D PDF file

When it opens you get a yellow-highlighted warning message just below the top menu bar
"3D content has been disabled. Enable this feature if you trust this document."

1. - Locate the "Options" button at the right end of warning message. Click it
2. - From the drop down choose "Trust this document always"
3. - Close the document
4. - Re-open it. Presto - 3D viewing is enabled for that document

In the free Acrobat reader this process has to be repeated for each 3D PDF the first time it's viewed
