

# The all-in-one contract automation platform.

Juro

Your business runs on contracts. But it can take five separate tools just to agree one simple agreement. And at a scaling business like yours, there's no time for contracts to block growth.

Juro replaces Word, DocuSign, GDrive, GSheets to help visionary legal counsel and the teams they enable to agree and manage contracts in one unified workspace.

## SELF-SERVE CONTRACTS

Enable self-serve on routine contracts. Juro's in-browser editor brings together contract text and integrations data with the right controls in place.

## COLLABORATIVE WORKFLOWS

Juro helps legal and business teams to collaborate securely, in one place. Our no-code workflow builder puts everyone on the same page and helps you keep control while you're growing like crazy.

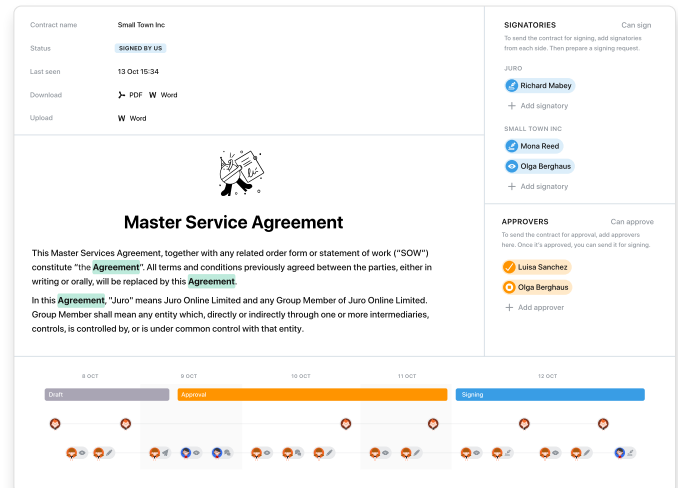

## NATIVE ESIGNATURE

Streamline the agreement process end-to-end with Juro's in-built electronic signature capabilities. Ensure that the right person signs every time and on any device.

## DATA-RICH REPOSITORY

Unlike legacy contract management platforms, which are designed for handling offline files, Juro's dynamic repository is built on a flexible data layer. This allows you to query your contract data at any time, as well as removing information silos across teams.

Juro customers report as much as **30% faster** contract turnaround times.

The screenshot displays the Juro interface for a 'Master Service Agreement' between 'Small Town Inc' and 'Juro'. The document is marked as 'SIGNED BY US' and shows a timeline from 8 OCT to 12 OCT. The timeline includes stages: Draft (8 OCT), Approval (9 OCT), and Signing (11 OCT). The document text states: 'This Master Services Agreement, together with any related order form or statement of work ("SOW") constitute "the Agreement". All terms and conditions previously agreed between the parties, either in writing or orally, will be replaced by this Agreement. In this Agreement, "Juro" means Juro Online Limited and any Group Member of Juro Online Limited. Group Member shall mean any entity which, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with that entity.' The interface also shows a list of signatories: Richard Mabey (Juro), Mona Reed (Small Town Inc), and Olga Berghaus (Small Town Inc). There are also approvers: Luisa Sanchez and Olga Berghaus.
