

Kastle Remote Video Guarding Protects More Property at Once

Live remote video surveillance helps your on-site staff detect and respond to events, preventing crime, damages and violations before they happen.

It's stronger security for covering a multifamily community than just adding guards - and much less expense.

Call us, we can help your guards cover property faster (and accurately) to keep it secure and keep residents happy.

The Benefits of Remote Video Guarding:

- » **Multiple Camera Locations** cover more area across property faster than a security guard
- » **A.I. - Enabled Cameras** have better vision accuracy than humans and never lose attention
- » **A.I. Analytics** accurately detect threats and trigger alerts instantly
- » **Live Guards in our Video Ops Center** respond in seconds to alerts or visual threats from cameras
- » **5X Faster Police Response** to visually verified threats or alarms
- » **Your Existing Cameras** can be monitored by Kastle Remote Video Patrol without buying new gear
- » **Live Audio Talk-Down** enables guards to verbally confront anyone violating security or property regulations
- » **Prompt Response** to loitering or resident infractions that a single guard can't cover
