Communications Overview

Strategic messaging, tools, and support to drive engagement and success

Virgin Pulse empowers clients with a suite of mobile, digital, and offline communications that help create a high-touch employee experience. Automated platform communications, on-demand member marketing assets, and self-serve communications tools make it easy to connect with your employees throughout the year.

The Virgin Pulse Client Success team is in place to support your organizational goals. Your Client Success Manager (CSM) will collaborate with you throughout your partnership to develop an annual communications strategy that layers your unique messaging and key announcements on top of our comprehensive, automated platform communications.

Member-Driven Messages

Virgin Pulse platform communications are designed to spark interest and inspire action with a friendly and supportive voice. Throughout the year, members receive timely messages and proactive reminders based on their interests, platform activity, and program milestones. These system-generated emails, push notifications, and site popups create a personalized, meaningful experience.

Administrators can also manage the events calendar and connect with your entire population, or specific population segments, with self-serve tools from the **Client Admin Portal**.

Custom Communications

Your Annual Communications Strategy is designed to amplify engagement and support your unique program design. Each client receives a flexible **Annual Service Credit** that can be applied toward the design and delivery of custom communication assets and unique campaigns. Your CSM will be there with support and guidance to make sure your communications are effective, and provide insights for future planning.
