

Navigate

Benefits Navigation

Navigate consolidates health insurance information into an engaging experience to simplify the individual health journey

Realize cost savings through reduction in unnecessary medical services, and drive awareness and utilization of relevant programs

Navigate:

Provides clients with a means to increase benefits utilization and to lower healthcare spend and premiums
Empowers members to engage with their wellbeing, health, and healthcare

14 average number of healthcare solutions offered per client

60% clients seek help from brokers or consultants to understand benefits options

With Navigate, members are driven to higher-quality, lower-cost care

Single Entry Point

By providing seamless and up-to-date access to benefit summaries, health insurance ID cards, account & deductible balances, and claims histories – all in one place – Navigate reduces the complexity members often experience when it comes to finding and using their benefits.

Lower Cost-to-Serve

The natural language, type-ahead provider search finds the right care for members. So as members navigate and select care, it will reduce the burden on a client's benefits team.

Drive Key Benefits

Clients can guide members to in-network providers that are relevant to their situation/search, lowering a client's healthcare spend and eliminating surprise out-of-network bills for the member. Members can reduce unnecessary medical services with a built-in symptom checker that triages to the proper level of care (for example, telehealth instead of visiting a physician's office).

Increase Engagement

Navigate helps members interact more confidently and competently with not just their health insurance benefits, but with other aspects of the Virgin Pulse solution. Clients can realize higher engagement in other aspects of the Virgin Pulse portfolio as Navigate guides members to using those services.
