D3 EDGE SECURITY TRAILER

[SELF-POWERED HARDWARE—RELIABLE SECURITY]

The D3 is the first of its kind Cloud+Edge Security Platform-as-a-Service that provides a full turn-key solution for perimeter detection, deterrence, and alerting to one or many Command Center(s). In a portable, easy to deploy and take down solution, this is your one-stop A to Z solution. You simply set it up on site, turn it on, and you're done! The D3's features include:

- **Complete security solution**
- **Live monitoring and onsite response**
- **Cloud-based automated alerts (email, sms)**
- **Two-way loud speaker**
- **Active deterrence (flood light, speaker, strobe)**
- **24/7 video recording**
- **Tamper-resistant battery backup system**
- **Thermal camera analytic intruder detection sees day and night.**
- **Alert management command center**
- **Live streaming video via cellular & satellite**
- **Self-sufficient power management**
- **Low maintenance**
- **iOS and android apps**

LiveView Technologies makes it practical and cost effective to add the industry's most reliable and complete video surveillance and monitoring solutions—without investing in expensive equipment, costly installations, or dealing with ongoing maintenance.

With a unique combination of solar powered "work anywhere" systems, intelligent software, convenient cloud-based access, and professional service, LiveView is ready to help you offer video surveillance solutions that cost less and set you apart from the competition.

D3 EDGE SECURITY TRAILER

[DIMENSIONS AND WEIGHT]

	DEPLOYED	TRANSPORT (ON TRUCK)	TOW
LENGTH	103"	100"	135"
HEIGHT	264"	102"	102"
WIDTH	96"	67.75"	67.75"

Weight (approx): 1600LBS
Suspension: 2000 lbs axel and springs
Tires: 13"

POWER
24v DC @ 24 watts (disarmed)
        @ 36 watts (armed)
        @ 100 watts (max - flood light on)
Battery bank capacity 460AH
Solar generation 560 Watts

OPTIONAL
100 amp power boost generation system
