

CARD PAYMENT PLATFORM

FOR INFORM ERP SOFTWARE USERS

**Fast, secure point-of-sale transactions
that are EMV ready**

Security is the top priority for our users. Genius technology from Global Payments Integrated (TSYS) protects distributors using EMV certified processing for complete PCI compliance. Genius Checkout technology integrates with Inform ERP (Version 19+) to process and accept payment while also delivering a fast counter experience. Customers enjoy the flexibility of paying with lightning-fast chip card transactions, debit cards with PINs or swipes.

DELIVER THE ULTIMATE COUNTER EXPERIENCE

- ✓ 4 second EMV transactions
- ✓ Digital signature capture
- ✓ Scrolling transaction line-item display
- ✓ Fully PCI compliant
- ✓ Level 2 processing
- ✓ Lower-cost PIN debit card processing
- ✓ NFC enabled for Apple Pay, Google Pay, Samsung Pay and more

HACKER FIGHTING TECHNOLOGY

- ✓ Cardholder information never enters Inform
- ✓ Optional CardVault securely stores card data
- ✓ TLS 1.1 encryption or higher to comply with the latest PCI standards
- ✓ Enhanced data security keeps cardholder data off the POS and secures systems with full encryption and tokenization
