

Mechanical Technologist

We like to do things the Eteros way; that means we do everything in-house, from 3D prototyping and CNC machining, to fabricating and electrical. We now have over fifteen products in our line-up and continue to design and release new products each quarter.

Eteros is a fast-paced environment that is not for everyone. The person we are looking for will thrive off that energy and will not be afraid to roll up their sleeves and get to it!

Check out what we make here:

www.mobustrimmer.com www.thetriminator.com

The culture at Eteros is extremely important to us. It is a tangible feeling that becomes contagious when you have the right people in place. So, what type of person is the ‘right fit’ for Eteros? Here is what we are looking for when it comes to fit:

Right Fit	Not a Fit
Can-do attitude	“That’s not my job” mentality
Strong work ethic	Not eager to learn
Sense of urgency	Lackadaisical
Resourcefulness	Not putting in an honest day’s work
Follow-through	Not a team player
Passion in your work	Not taking ownership
Happy people	Watching the clock

Requirements

- Hobbies must align with this position (send portfolio with anything related to mechanical design)

Salary

\$60,000 - \$80,000 per year

Job Perks

In addition to working with an awesome group of people, Eteros offers a comprehensive benefits package after three months. After one full year of employment, employees are eligible to participate in the company’s Employee Stock Ownership Plan.

Additional Information

For a list of duties and more information on this role, please check out www.eteros.com/careers

Duties

- Complete detailing of designs using SolidWorks and employing good modeling practices
- Verifying that product designs are manufacturable, user-friendly, and serve their intended purpose
- Sourcing suitable COTS components for integration
- Generating and maintaining BOMs
- Leading the hand-over of a new product from R+D to the Manufacturing Engineering Department
- Working with production staff to improve and/or design tools, fixtures, and equipment
- Maintaining time and product development logs for SRED and other granting programs

Education and Credentials

- Certificate or degree from a recognized Mechanical Engineering/Technology program or related field

Other Requirements

- 5+ years of mechanical design experience
- 5+ years of hands-on experience such as machining, fabricating, assembling, being a mechanic, or having a genuine love of building things since childhood
- A strong attention to detail
- A good understanding of tolerancing and fitments
- The ability to juggle multiple projects at once and prioritize work as required to meet deadlines
- The desire to learn new skills and self-improve
- Fluency in SolidWorks
- An understanding of revision control
- Excellent oral and written communication skills
- Familiarity with electrical systems and/or PLC control is an asset
- Experience with Salesforce or similar CRM software is an asset
